3 FIREMEN RUSHED TO HOSPITAL

An explosion and fire in the home of George C. Lee, head of Lee, Higginson & Co., bankers, at No. 242 Beacon street, took one man's life today, sent three firemen to hospitals and badly damaged the five-story brick structure.

Trapped by the surging flames, R. W. Wallace of Beverly, foreman of carpenters engaged in the building, raced for a window, gripped a waterspout and slid for his life four stories to the ground. His hands were badly frictionburned.

Judson M. Vail, 64, a carpenter was found crumpled on the fourth floor of the burning building, his body a charred mass. He lived at No. 295 River street, Braintree, with his wife, Mrs. Annie M. Vail, and a son, Chester.

The burned and blackened body was carried down the smoke-filled stairways by Lieut. Jarvis of Engine 26 and turned over to Hoseman Kramer of the Rescue Company, No. 1, but as soon as the outside was reached and Vail's face was seen, it was plain that he was beyond aid.

PAPAL EDICTS BARS CALLES FROM CHURCH

Mexico City, July 16 (I.N.S.).—President Calles and every member of the Cabinet have been excommunicated from the Catholic church, the newspaper El Imparcial stated today.

The Papal decree, the newspapers added, forbids Catholics to have dealings of any kind with the officials under the ban, thus seriously handicapping Mexican church leaders who are striving to modify the regulations of church activities recently issued.

Government officials were inclined to regard the [illegible] as of little importance.

The Mexican government has explained the new religious regulations which go into effect July 31 have as their object the confirmation and repetition of laws issued more than fifty years ago and incorporated in the Mexican constitution of 1917. Thus, they declare, the rules will give effect to what is already the organic law.

The regulations provide that only priests or ministers of Mexican citizenship shall officiate at religious services; all church property will be confiscated, on the ground that such property has been held by the churches unlawfully for the last fifty years; severe penalties will be imposed for religious instruction in schools, and sectarian publications will be prohibited from making any comments on carrying any news of national political affairs.

The penalties vary from fines of 500 pesos upward or imprisonment for fifteen days, or more. There will be no trial by jury, the punishment to be whatever the authorities decide.

A statement issued by the Mexican government on July 6 said: "The regulations apply to all religions, but the Catholic Church is most affected, because it is the purpose of the Mexican government to keep the Catholic Church outside politics."

What Vatican's Action in Mexico Actually Means

Excommunication is an act of ecclesiastical jurisdiction whereby a Christian is separated from the communion of the church. It is commonly identified with the Roman Catholic Church, although the Reformers claimed and exercised the same rights in regard to excommunication as did the Roman Catholic Church.

In the Roman Catholic Church there were two degrees of excommunication, major and minor. By the minor an offender was deprived

QUIGLEY CASE IS NEAR END

Following its second trial, lasting 17 days, the Chelsea rum conspiracy case, including Mayor Lawrence F. Quigley of that city as defendant with 12 others, will go to the jury late today in Federal Court.

The first trial, begun on January 26 and ending on March 6, resulted in a disagreement after the jury had been out 22 hours.

The morning session of court was taken up today by U. S. Commissioner Harold P. Williams in his closing argument and he was followed by Judge George E. Morris of New Hampshire in his charge to the jury.

The past two days have seen the closing arguments on the part of seven defense counsel, augmented by pleas for acquittal made by Sergeant Walter A. Barden and Officer Edward Forbes, Chelsea police officers, not represented by counsel.

In addition to Mayor Quigley the following Chelsea residents are defendants in the case: Thomas Quigley, brother of the Mayor and inspector on the Chelsea Police Department; Sergeants Edward W. Ishester and Walter A. Barden; Officers Edward McGreevey and Edward Forbes, all of the Chelsea Police Department; Edward Conlon, Harry Murphy, Frank Goldman, William Wall, William Giller, Neil O'Keefe and Ed Weinstein.

WALSH TALKED WITH NEAR SO. END OFFICE, JUMPS SUBWAY CAR

Dr. Thomas E. Walsh, wanted for the murder of Edith Louise Greene, dismembered victim of the Mattapan cardboard box tragedy, was found in the South End today by the Boston Evening American.

He was discovred waiting for a street car at the corner of Washington and Northampton street, a few yards from his offices, which he had just passed with a furtive look at the windows.

Doctor Ran for Car Going Towards Subway Station

Asked if he was on his way to surrender to the authorities, who hold murder warrants for both himself and his wife, the accused doctor replied:

"Everything will be all right now. There's nothing more to say."

He ran for a car bound through Northampton street toward Massachusetts station and he was followed to Huntington avenue where he left the car, bought a package of cigarettes at a corner store and took a subway-bound car which arrived just in time to whisk him away ahead of his shadowers.

His reappearance near the scene of his practice at No. 1179 Washington street followed hours of dickering with the police as to bail and other matters through attorneys while he himself and his wife remained in hiding.

Watchers at his offices saw him walk swiftly past the Washington street building, toward which he cast a guarded glance.

Seeing no officers, he appeared to be reassured. When confronted at the corner of Northampton street, he made no attempt to conceal his identity.

Advice of counsel, Dr. Walsh said, prevented his talking any more at this time, but, although his face showed lines of strain and worry, his demeanor generally was that of self-confidence.

CLEAR SKY ASSURES BERLY-DELANEY BOUT

Boston Evening American Boxing Expert

New York, July 16.—Paul Berlenbach and Jack Delaney will battle under clear skies in their 15-round conflict for the world's light heavyweight championship at Ebbets Field, Brooklyn, tonight.

'EVERYTHING IS ALL RIGHT,' SAYS DR. WALSH ON STREET

STARTS OFF TOWARDS SUBWAY

Continued from First Page.

Several theories were advanced as to why Dr. Walsh refrained from putting in an appearance at police headquarters. One was that he was bargaining to save his wife from arrest. Another was that he was waiting to see what indictments the Grand Jury would bring, and a third was that he was willing to surrender only to something less than a murder charge, because he wished to be released on bail.

The police pointed out that bail will probably be large, if it is permitted at all, and it is possible that the wanted doctor is busy trying to arrange the necessary sureties for himself and his wife. He is also believed to be recovering from illness brought on by his connection with the case.

Betty Landry, the dead girl's chum, was one of the first to go before the grand jury to tell her story of the struggle of Edith Greene against the odds that finally overwhelmed her.

NEW SEARCH MADE.

Tracing the second doctor believed to have had a hand in the carving up of the girl's dead body, investigators found more of his mail in the South End, and a fresh search in his hotel room revealed several empty cartons which had held bottles of liquor. They also claim to have found where he purchased liquor in the vicinity.

Just before Dr. Walsh appeared near his offices a woman and a girl emerged from the building and were driven away in a taxicab. This taxi arrived a few minutes before with another woman, believed to be a sister of Mrs. Walsh, whom it carried to the Washington street location from an apartment in the Back Bay.

Hunting for Dr. Walsh and his wife, private detectives hired by the district attorney were watching the offices of several Boston lawyers in a race with the police for the credit of nabbing Walsh.

Meanwhile the Suffolk County Grand Jury convened, with a score of witnesses on hand to tell the gruesome story of the death of the pretty student nurse.

Search for the second physician believed to be involved in the crime, as revealed in evidence turned over to the authorities exclusively by the Boston Evening American, went on in Greater Boston and also in New York, with the police and District Attorney O'Brien vying in this hunt, as in the search for Dr. Walsh, for the honor of the find.

Assistant District Attorney Eugene Harrigan made a call to a Somerville hospital and learned there the details of a telephone call made by this other doctor when he tried to arrange to leave a girl patient there.

He also questioned a nurse with whom the physician talked by telephone from a South End hotel regarding employment in "a girl case in Roxbury." This is the physician of short build, who was seen in company with Dr. Walsh a short time before the mutilated remains of the pretty, eighteen-year-old nurse of the Psychopathic Hospital were disposed of.

Further evidence came to the authorities today of his skill in dissection and it is connection with the dismemberment of the body that he is suspected.

The information given by Cleveland Grover of Dorchester, a salesman for a State street concern, that he talked with a youth who drove two intoxicated doctors to Lewiston, Me., on Monday night will be thoroughly investigated.

POUNCE ON HIM.

If Dr. Walsh dared venture to an attorney's office the detectives expected to pounce upon him and place him in custody without further bargaining. According to plans he was to be taken immediately to court, finger-printed, photographed and confronted with his accuser, young James Vincent Ford of South Boston, the dead girl's sweetheart, before the subject of bail would be even considered.

The physician's dickering efforts, and his "underground" requests for bail arrangements because of supposed illness, gave new impetus to the race between District Attorney O'Brien and Superintendent Crowley's men for the honor and publicity of arresting him.

CHARGES IRREGULARITIES.

While Superintendent Crowley disclaimed any wish for credit in the arrest, District Attorney O'Brien made no effort to hide his desire to thwart the police because of what he alleged were irregularities in the handling of the arrest of Ford.

Ford was released by the police after his confession, with the understanding that his attorney would produce him in court the following morning. But meanwhile O'Brien had men searching high and low through the city for him and when he found him at the lawyer's house, he promptly took him away under arrest.

Indictments were expected early in the investigation launched by the Grand Jury. Many witnesses were summoned and the first on hand to testify was Dr. Timothy Leary, medical examiner, who still has charge of the gruesome body of the pretty girl.

WALSH SEEN WITH LAWYER.

The struggle of the district attorney to outwit the police department was rendered more energetic when private detectives put on the trail by him learned that Dr. Walsh was seen in company of a Boston lawyer as late as Wednesday night, just prior to the positive identification of the body.

Betty Landry, girl chum of "Edie" Greene, was exonerated of any blame in the affair by District Attorney O'Brien, after he investigated the story that she went with a man named Vincent Murphy to the lodging house of the dead girl and tried to get the victim's clothing and other belongings.

The Landry girl knew that an operation was planned, but had done all in her power to persuade her friend to be married instead, and did not know of her death at the time she went for the articles at the boarding house, according to the authorities.

TRAIL LEADS TO GARAGE.

Officers visited a garage on Northampton street near Tremont where the Walshes were reported to have kept their light blue Bay State roadster. No trace of the car was found.

Investigation showed that the car had been sold or transferred by Mrs. Walsh to a woman relative who lives close by on Washington street, near Northampton street. The registration number is 252,330.

Inquiry as to Mrs. Walsh and her automobile disclosed the fact that Mrs. Walsh preferred a charge of assault and battery against Richard H. Long, Jr., on June 26, 1925. The affair occurred in the salesroom of the Bay State Motor Company. Long was fined $50 in Brighton court.

ONLY 13 JURORS IN 'BOX' CASE

Betty Landry, Inspector James Dennessey, Medical Examiner Leary and Police Stenographer Gill were on hand today to testify when the grand jurors were called into session to hear State charges on the mattapan "beat" death mystery.

Finding only 13 jurors present for the special sitting, District Attorney O'Brien halted proceedings and announced he would wait until at least 15 were present, although he hoped to work with 17 or more.

The district attorney expected Dr. Walsh to surrender because he said that in four previous cases in which he was involved, the doctor gave himself up without arrest.

GETS SIX MONTHS FOR CARRYING GUN

John P. Keenan, twenty-two, of Boston street, South Boston, was sentenced to six months in the House of Correction today for carrying a revolver without a permit after he had been found not guilty of assault with intent to kill a patrolman. His appealed from the sentence which was imposed in South Boston District Court.

Keenan had been charged with pointing an automatic revolver at Patrolman Di Natale of City Point station, when the latter, with another officer, held up a car in which Keenan was riding in Dorchester street. The driver, police claim, was unlicensed. Keenan was held in $1,000 pending appeal on the gun charge.

FORD TRUSTED BY CROWLEY

Superintendent of Police Michael H. Crowley again today made a statement in reply to the charges of District Attorney O'Brien, that he was lax in handling the arrest of James Vincent Ford, sweetheart of Edith Greene, the dismembered girl victim.

The police head pointed out that the fact the district attorney's office found Ford at the home of Attorney Francis J. W. Ford in Lime street proved that the youth intended to live up to his agreement not to run away.

O'Brien had charged that the South Boston youth should not have been allowed his freedom for several hours after he had confessed.

"I had implicit confidence in Attorney Ford, who as a member of the bar is an officer of the courts," said Superintendent Crowley. "Such reliance on an attorney to produce his client is nothing new. In many cases defendants are given as much as 24 hours in which to appear in court."

Apart from rare cases in which excommunication is imposed for a fixed period, and then ceases of itself, it is removed by absolution.

Excommunications specially reserved to the Pope are twelve in number. Among these upon whom the Pope may impose excommunication, according to The Catholic Encyclopedia are: "All who kill, mutilate, strike, seize, incarcerate, detain or pursue with hostile intent, cardinals, patriarchs, archbishops, bishops, legates or nuncios of the Holy See, or drive them from their diocese, jurisdictions, estates, or domains, as also those who ratify these measures or furthur them by aid or countenance."

Bevick fell into a police trap while they claim he was collecting the money. The girl has been missing since May 28. Dr. Mason received a letter at his Back Bay office which stated that if he would put $350 in an envelope and hand it to a man in a gray suit at Newbury and Huntington street he would get information about his daughter in fifteen minutes from a second man.

The letter warned him not to communicate with the police or he would be killed. Dr. Mason went to Station No. 11, turned over the letter to Captain Matthew J. Dailey and twon officemen and a policewoman were assigned to the case.

Bevick was arrested when he met Dr. Mason at the appointed place and was about to walk away with the money. Two other youths were taken into custody, but released.

After being questioned he was booked on a larceny charge. Police say they are convinced he knew nothing about the missing girl and that how rote the letter merely to obtain the money.

DEFINITION OF FLOUR AGAIN SOMETHING ELSE

Washington, July 16 (A.P.)—The Department of Agriculture has changed its mind on the answer to the question, "What is flour?"

The amended definition, published today, described it as "a fine, clean, sound product, made by bolting wheat meal. It contains not more than 15 per cent moisture, not less than 1.25 per cent. nitrogen, no more than 1 per cent. ash and not more than 5 per cent. fibre."

The "moisture" represents the loss in weight from drying by the vacuum method, as compared with the former limit of 13.5 per cent of moisture determined by the less accurate water oven method.

FATHER DIES IN ATTEMPT TO SAVE BOY

Sandwich, July 16.—Frank Galvao, 44 years old, and his son, Joseph, 7, were burned to death today when fire destroyed their home. The father lost his life in an attempt to rescue his son.

Galvao was awakened by smoke in his bedroom on the second floor which was occupied by himself and his wife, Freida. Their son, Joseph occupied a smaller room on the second floor also. He leaped from the bed and aroused his wife. As they opened the door flames were racing through the hall, stairway and the room occupied by Joseph. Galvao seeing that his escape was cut-off made for the window with his wife, through which he dropped her to the street in safety.

After shouting a warning to his two daughters and Miss Katherine Kelly of Wareham, a guest, who were sleeping on the first floor, the father then started to rescue his son Joseph. He fought his way through the flames and smoke to where the lad was trapped and died in the attempt. The body of the child was found clasped in the arms of the dead father after the fire had destroyed the building.

The house is in an isolated section off the main road and the fire started of unknown origin raced with incredible rapidity.

'PEACHES' WILL TOUR N. E.

New York, July 16 (I.N.S.)—Edward W. Browning, millionaire realtor, and his "Cinderella" bride, Frances "Peaches" Browning, will start on another honeymoon.

The couple will follow the Mohawk Trail by automobile to Canada, and return through the New England States, stopping at Crystal Lake, Barton, Vt., to visit Browning's foster daughter, Dorothy Sunshine, at her camp.

The Brownings will arrive at the Hotel Ten Eyck, Albany, Friday night. They intend to stop over at Lenox, Mass., among other places, along the route.

'AL' SMITH IS LUNCH GUEST OF COOLIDGE

White Pines Camp, N. Y., July 16.—Al Smith, wet and Democratic, lunched with Calvin Coolidge, dry and Republican, today, but the public will never know about it photographically.

Pictures of New York's popular governor arriving at White Pines Camp? certainly.

Pictures of the governor and the President together? No.

That was the edict on today's meeting of the two outstanding personalities for 1928, as delivered by President Coolidge in person.

INSPECTS MARINE CAMP.

Mr. Coolidge inspected the marine camp, included in his Summer establishment, last Thursday for the benefit of the photographers. Following the event, one of the movie men approached the Executive and inquired about the prospects of getting a picture today of him and his distinguished guest.

"I don't see how it can be done," retorted Mr. Coolidge sharply, and, upon being pressed, repeated the statement several times.

Gov. and Mrs. Smith and their official party arrived at Paul Smith's by motor, prepared to welcome President and Mrs. Coolidge to New York State.

ATE PRESIDENTIAL FISH.

It being "fish day," Gov. Smith sampled some of the specimens which the President has been grabbing from waters hereabouts.

Mrs. Coolidge was very glad to see Mrs. Smith. The latter brought the first lady a fishing license to match the one sent the President by the Governor.

TAKES POISON BECAUSE HER HUSBAND LEFT HER

Despondent because her husband would not live with her any longer, Mrs. Theresa Long, 32, roeming at No. 44 East Brookline street, South End, attempted suicide, according to the police report, in her room on the second floor, where she was found lying on the floor in a semi-conscious condition, as a result of having taken poison.

The victim was found by Mrs. Margaret Cronin, her landlady. Her condition is not regarded as especially critical.

APPROVE B. & M. $13,000,000 STOCK PLAN

Reorganization Issue of $43,522,000 in Bonds Also Wins the O. K. of Government

The financial reorganization plan of the Boston & Maine Railroad was approved today by the Interstate Commerce Commission, opening the way for the issuing of $13,000,000 of 7 per cent. prior preference stock —130,000 shares at $100 each.

Also $43,522,000 of mortgage bonds will be issued. The stock may not be sold at less than par and accrued dividends and the bonds may not be exchanged for less than par and accrued interest.

Dates and maturities and the interest amount for the bonds were specified by the I. C. C., and stipulation was made that none of the stock or bonds should be sold, pledged, repledged or otherwise disposed of until ordered by the commission.

Commenting on its approval of the reorganization plan, the commission said the road has been unable to take advantage of cash discounts on its bills; dividends have been passed, and impairment of credit suffered—all the result of its meagre income prior to 1924.

The readjustment, mapped out by a committee of sixteen stockholders, has as its purpose the re-establishing of the road's credit and a general financial readjustment.

During the next three years $18,-130,960 will be spent in additions and betterments, according to the approved plan, improvements including enlarged terminal yards at Boston, enlarged clearance of the Hoosac Tunnel and strengthening of bridges.

Sullivan is said to have the political backing of Charles H., Ex-Mayor Curley and "Dan" Coakley.

A short time later George Kilduff of Engine 33 went to the City Hospital overcome by smoke and Fireman William Whalen of Engine 3 was taken to another hospital with badly cut hands. Whalen injured [illegible] duty, however and resumed his work despite heavy bandages.

The painter, is believed to have been burned to death in a fire," the burst of flame that accompanies an explosion. According to fellow workmen there was a sound like an explosion and then the entire house appeared to fill with flame and smoke.

ON HONEYMOON.

Spontaneous combustion in paints and other supplies is blamed for the fire, for which two alarms were sounded and which caused a damage estimated at many thousands of dollars.

Banker Lee, owner and occupant was married a week ago today in Paris to Mrs. Gertrude Cramer Bartlett, widow of Edwin Bartlett of Boston.

The couple are now on a honeymoon in Europe and the Lee town house was being refinished during the absence.

The message said that he died suddenly while on board. His wife and daughter, who make their home here, are out of town.

BRITISH UNEASY OVER ANDREWS

London, July 16 (A.P.).—Conversations now going on between British officials and Brigadier-General Lincoln C. Andrews, American prohibition enforcement chief, with a view to curtailing international rum smuggling, are beginning to cause uneasiness in some British circles.

It is felt that legitimate trade shipments from England to Argentina by way of the West Indies may possibly be subject to unnecessary scrutiny and delay. It is felt that fears would be true if the right of search was extended to United States revenue cutters, even if the search for liquor was carried out with the best intentions in the world.

Although British whiskey interests showed little interest when General Andrews first arrived here, they now say they would be glad to see him and answer any questions he might care to put. The General, however, says he is not interested in the least in the distillers' affairs.

"I am here at the suggestion of the British government," he said. "If the distillers care to talk, to me, man to man, I would be glad to see them, just as I was delighted to have a two-hour talk with a 'master bootlegger' prior to my leaving New York."

NEW BEDFORD SEEKS BIDS ON $120,000 BOND ISSUE

New Bedford will receive bids until July 21 for purchase of $[illegible] 4 per cent. water bonds, dated July 1 and payable 1927 to 1956 and $[illegible] 4 per cent. school bonds, dated July 1 and payable 1927 to 1946.

'COUNT' IN N. Y. FOR $8,000

Apparently eager to mend his shattered home and provide for his wife and child, "Count" Paul Anatole Monte, otherwise Nicolas Wiseman, is in New ork today to retrieve $8,000 in bonds stored in a safety deposit vault.

Monte is on temporary probation, paroled in the custody of Probation Officer John Barter, who accompanied him on the boat trip to New York. If the trip fails to produce the bonds Monte will be brought back and his troubles commence anew.

Seven of the bonds, valued at $7,000, are to be turned over to Mrs. Wiseman, if they are found, for the support of herself and their daughter Miriam.

It was through the intercession of Monte's wife, who blamed most of their family troubles on a Miss Weed, that he was granted the chance to recover the bonds.

Mrs. Monte, or Wiseman, said she believed if Miss Weed let her husband alone he would do right.

champion and Nobile a great flyer. Ceaseless energy is the mainspring of success.

SENATOR CUMMINS, to whom the whole world looks like that famous picture, "A Gray Lowery Day," predicts that President Coolidge will not run in 1928. Defeated in the Senatorial primaries, Senator Cummins is gloomy about others.

PRESIDENT COOLIDGE is the natural candidate for the Republican Party in 1928, and will be nominated for his SECOND elective term. Republicans of good judgment know that they will need him in 1928, particularly if a strong man like W. G. McAdoo or Governor Al Smith is nominated by the Democrats.

Republicans will not forget that when President Coolidge in 1924 carried New York State with a vote of 1,820,058, Governor Smith's vote was 1,627,111, beating Roosevelt, the Republican candidate, by more than 100,000 votes. If Smith could do that, running for governor, with Coolidge on the Republican ticket, what would he do at the head of the Democratic ticket with Coolidge absent from the fight? The Republicans will need in 1928 the man that got 1,820,058 New York votes in 1924.

DYSPEPTICS, THIS will interest you. Delaney and Berlenbach, matched in a prize fight in New York, yesterday weighed in at 4 p. m. The fight is postponed until tonight and the men are not bound by any increase in weight.

Berlenbach, a big man, who needs more weight for his best fighting, is expected to gain at least eight to ten pounds during the twenty-four hours of postponement. His trainer expected that he would gain at least five pounds yesterday between the hour of weighing in and the beginning of the fight.

John L. Sullivan, in training, would change his weight eight pounds in a day. That is real metabolism.

YESTERDAY, St. Swithin's Day, it rained along the Atlantic Ocean, and millions believe it must rain every day for forty days. Of course, it won't, but that does not interfere with the belief.

St. Swithin, dead more than a thousand years, has affected the rainfall as little as his pupil, Prince Ethelwolf, son of King Egbert. Superstitions start easily and are hard to kill.

ST. SWITHIN did more for religion than merely interfering with the rainfall. He persuaded his pupil, when king, to give a tenth of his lands to the church, and as bishop, giving great banquets, St. Swithin invited the poor, not the rich, and gave orders that he should be buried outside the church "in a vile and unworthy place." That was, perhaps, going too far.

IMAGINATION influences us more than facts.

Nelly Bly went around the world in about seventy days. There was great excitement, but there was more real interest in Jules Verne's "Around the World in Eighty Days." After Nelly Bly, somebody went around in thirty-five days. That was less interesting. Nelly Bly, a young girl, stirred the imagination. Now Evans and Wells, two courageous young travelers, go around in twenty-eight days, 14 hours, and there is only mild cheering, no great interest.

NEW YORK'S Tammany authorities are said to plan a tax on visitors from out of town, a sort of "cover charge" of ten cents a week on all hotel residents, to help pay the city's expenses.

That hardly seems worthy of the biggest, richest city in the biggest, richest country. It is probably only part of a plan to break gently the news that New York's five-cent fare is to be increased.

"A DRY FORCE of 150 will mop up New York." It must be a good dry force, considering that, according to prohibition authorities, there are 15,000 speak-easies in New York city alone.

And millions of gallons of so-called "denatured" alcohol are made over every year into perfectly good and thoroughly poisonous bootleg whiskey.

BELLHOP HELD IN $5000 THEFT

New York, July 16 (I.N.S.).—Leonard Epstein, 18, of this city, who police say is wanted in New Hampshire for the theft of jewelry valued at $5,000, will be held here until July 20 pending the arrival of extradition warrants. He is charged with being a fugitive from justice.

When arrested at his home here Epstein had $250 in cash and a $600 watchfob in his pocket. Police said he admitted stealing the watchfob and additional jewelry from the locker of Thorne Lawrence, a millionaire, on the golf course of the Maplewood Hotel in Maplewood, N. H.

Detectives said Epstein, who was a bellhop at the hotel, had disposed of all the jewelry except the watchfob.

BOSTON GIRL OF 1926 NAMED JULY 21

Identity of The Boston Girl of 1926, sought in a month's quest by the Boston Evening American, will be announced in next Wednesday's paper.

The fashion and art authorities who are the judges make their selection Tuesday afternoon.

One hundred and twenty-five fashionably dressed, prepossessing young women have been invited to appear before the judges out of hundreds whose photographs were submitted. To each a letter of instructions was mailed last evening.

To the girl chosen as most typical Boston Girl of 1926—keenest in the aesthetic impression the ensemble of her clothes and personality creates—the Boston Evening American awards the Silver Laurel and $500. The Silver Laurel is a valuable trophy in itself and was wrought by the silversmiths of one of Boston's leading jewelry houses. A second and third girl each get miniatures of the Silver Laurel and in addition the first receives $250 and the latter $100.

Watch for the photograph of the girl with the golden gown, the chic style of which won her the Silver Laurel.

The judges who kindly consented to select the Boston Girl of 1926 at considerable inconvenience to themselves, are Miss Lucy Park, New York fashion authority and associate editor Harper's Bazaar; L. W. Sargent, director Sargent School for Physical Education, Cambridge; Cyrus Dallin, the sculptor, and Royal Bailey Farnum, director art education, Massachusetts.

LOWELL JOINS PROTEST ON CUT IN FORD CHARGES

Lowell, July 16.—The Trades and Labor Council last night voted to join the general protest of labor organizations throughout the country against the plan of the Ford Motor Company to reduce labor charges in repair shops 20 per cent.

Following the vote, Secretary Parker F. Murphy sent a letter to the Ford company, urging abandonment of the plan. The labor men contend it will reduce wages of employes.

$4,550 IN FUND FOR FAMILY OF J. F. MAHONY

With a nucleus of $4,550, a large committee arranging a tribute to the memory of John F. Mahoney, former newspaper man, sportsman and publicity director, is today laying plans for raising a fund for his wife and family.

The money already in the treasury was given spontaneously and came from men and women with whom the popular sportsman was associated during his life.

It is probable the tributs will take the form of a big benefit boxing carnival, to be staged at either Braves Field or Fenway Arena, the managements of which have offered their amphitheatres for the purpose.

Bayard Tuckerman, Jr., one of Mr. Mahony's close friends, was named treasurer of the fund and will receive contributions at his office, Obrion, Russel & Company, No. 703 Water street, Boston.

The contributions ranged from $1,000 to $100, the larger sum coming from Colonel Maddin Summer York. Among the local contributors were Bayard Tuckerman, Jr., $500; Eastern Horse Club, $500; Merrill Griswold, $50; Chester I. Campbell, $100; Albert M. Sinsabaugh of the Tremont Theatre, $100; E. Mark Sullivan, former corporation counsel, $100; L. C. Prior, $100; James J. White, $100; Elizabeth Joyce Broderick, $100, and J. J. McNamara, former governor's councilor, $100.

5 BODIES YET IN HOTEL RUINS; 16 MISSING

Haines Falls, N. Y., July 16 (A.P.).—For the third successive day tired workers today continued their task combing the fire ruins of Twilight Inn for the bodies of at least five more persons believed to have burned to death. Sixteen guests and employes remain on the official list of missing.

The first inquiry into the tragedy opened today when Coroner Horace G. Baldwin of Green County started his inquest and performed an autopsy on thirteen of the bodies. The fourteenth, that of Rev. George Livingston Bishop of Frazer, Pa., was claimed by relatives.

The long established belief that ice will push under intense heat seemed refuted in the fire that destroyed the inn.

Today, 48 hours after the fire, there stood at one side of the hotel ruins, a pile of ice several tons in weight and rising higher than a man's head, still covered with its protective sawdust. There was little evidence it had melted at all, although around it were the charred embers of the building which once was the ice house.

BOB IN EVENING TOGS WINS OUT

Des Moines, Ia., July 16 (A.P.).—Shimmering party dresses and a New York woman attorney with gray hair, mannishly shingled, are the apparent winners of first honors in the convention of the National Federation of Business and Professional Women's Clubs, closing here today.

In beaded dinner gowns and other formal frocks, the delegates accomplished more in one two-hour session than in two days of parliamentarism, heated argument and maneuvering in business or street dresses.

Miss Lena Madesen Phillips, New York attorney, with a striking, but becoming coiffure, apparently will be the next federation president. Her only opponent, Miss Mary Stewart, of Washington, of the Federal Department of Labor, has refused the nomination.

OLD IRONSIDES FUND INCREASED TO $222,404

Slow, but steady progress in the campaign to raise funds for the preservation of "Old Ironsides" is shown in the statement issued by the naval officers in charge. The receipts were swelled by a day's contribution of $927.05 bringing the gross amount up to $222,404.65.

The statement for June, July authenticated, indicates the fund stood at $187,653.15, when the drive for July began. The expenditures for June were $1,453.66.

GOVERNORS TO DISCUSS STATE EXPENDITURES

Augusta, Me., July 16 (A.P.).—Emphasis by President Coolidge the past year relative to the States spending too much money will give the subject of expenditures considerable attention at the eighteenth session of the Governors' conference to be held at Cheyenne for three days, beginning July 26, when the chief executives will be guests of Governor Nellie T. Ross of Wyoming.

"Bold Bad Man" Amateur

New York, July 16.—Glen Miller, the "bold bad man" who shot up Broadway theatre crowds and wounded six persons in an attempted hold-up, has turned out to be nothing but a rank amateur trying to distinguish himself in the big town, according to police.

Was it fascination or love? One girl of the hold-up sights thought she loved the movie king. But did she? Read a thrilling story of night life in "The Taxi Dancer." It begins in next Monday's American.

She was found unconscious at the foot of the stairway by her husband. She suffered a broken collar bone and concussion of the brain.

WHEAT PILES FACE RUIN FOR LACK OF CARS

Kansas City, July 16 (A.P.).—With thousands of bushels of the $150,000,000 Kansas wheat crop piled in the open because of lack of transportation facilities, railroads are rushing trains of empty box cars into the grain belt in an effort to prevent damage from sun and rain.

Harvesting of the bumper crop has exhausted storage facilities, and as the piles of wheat increased along the railroad right-of-ways farmers and bankers found the situation acute.

Reinforced with extra crews, railroad officials concentrated on speeding the unloading of wheat at terminals and prompt dispatching of cars to the production centres. More than 1,000 empty cars were reported to have passed through here yesterday enroute to Central and Southwestern State points.

Farmers at Sublette reported more than 200,000 bushels of wheat piled along the tracks. Movement of the Kansas crop started earlier than usual this year, railroad officials say, because of a more general use of combine harvesters that cut and thresh in one operation.

Governor Paulen said that, although Kansas farmers had a bumper wheat crop, a large portion of the money received probably would be used in liquidation of obligations previously incurred.

POSTOFFICE CLERKS MUST NOT BORROW

Washington, July (A.P.).—Post office employes were warned against "borrowing" even for a day any of the department money in their care. Reports that employes have converted funds to their own uses, substituting personal checks or due bills, resulted in the issuance by Postmaster-General New of a notice.

MORSE'S LIFE IN DANGER

Bath, Me., July 15 (A.P.).—Harry and Erwin Morse, sons of Charles W. Morse, former financier and shipbuilder, arrived today for a conference with their father on the decision reported from New York that pleas of age and illness would not excuse his pleading to a five-year-old indictment charging him with using the mails to defraud.

His physician said Morse was on the verge of a stroke and declined to allow him to be interviewed. Morse was up and about the house, however, and the physician did not appear particularly disturbed over his condition.

Harry acted as spokesman to the extent of declaring that they would not discuss the case or their father's condition until after they had talked with him for several hours. The third son, Benjamin, was also expected to attend the family conclave, but the daughter, Mrs. John Casson Geiger of Chicago, was not expected.

Charles W. Morse was dealt a double blow when the death of his second wife, who twenty-five years ago sold her personal property to satisfy claims against him, occurred almost simultaneously with the adverse decision of the court.

WILL DEFEND JUDICIARY

Denver, July 16 (A.P.).—American Bar Association delegates are to hear rebuttal testimony to the indictment made by its own members that the judicial branch of the government is unable to cope with present existing evils.

The forty-ninth annual convention is to close today with election of officers.

Twenty-three committees and sections submitted reports intended to show how the judiciary fails to function against marauding criminal bands and because of this is unable to retain public confidence. The convention then approved several measures designed to aid in the interpretation and administration of the law. Rebuttal testimony will be presented in the form of reports from the nine remaining committees.

George W. Wickersham is regarded as the outstanding candidate for president.

SEIZE $325,000 TRUCK LOOT

New York, July 16 (I.N.S.).—Three men were arrested early today in what police assert is the biggest roundup of receivers of stolen goods in the city's history.

A squad of detectives raided No. 49 Crosby street, almost in the shadow of police headquarters, seized Samuel Greenbaum, 42; Israel Davis, 22, and Charles Karen, 39, and goods valued at $325,000.

Agents of insurance companies identified $200,000 worth of the goods as the proceeds of recent truck holdups.

Detectives declared the operations were nationwide.

Officials of insurance companies said the loss sustained yearly from truck holdups exceed $1,000,000 in New York alone.

A complete repacking plant was found in the raided building. On the door was the sign, "Export Packing Corporation." According to police, the stolen merchandise was turned over to the packing corporation by truck bandits.

BRIDE FREES FIANCE FOR WEDDING

Bridegroom, Rushing to Ceremony, Arrested as Tipsy Driver

Stamford, Ct., July 16.—Although his first wife had been dead but two months, Alex Chapletsky, 42, of Portchester, N. Y., was hurrying so fast into another matrimonial alliance that he fell into the clutches of the police.

The arrest delayed but did not prevent his marriage, for the intended bride, Mrs. Stella Mashashy, 37, bailed him out and then coyly answered yes when a justice of the peace united them.

Chapletsky was held up by the police, who believed he was driving his auto while under the influence of liquor. Despite his protests that he was hurrying to propose marriage to a Stamford woman, he was locked up.

Later Mrs. Mashashy appeared and asked for her husband, but after identifying Chapletsky admitted the union had not been affected yet, but she was perfectly willing to go ahead with the ceremony on the spot. Then the justice was brought in.

The bride has been married twice before and each has two children.

Columbia, Miss., July 16.—Jeff Wallace, 39, father of nineteen sons and daughters, will die on the gallows in Marion County jail here tomorrow, for the murder of his wife.

Refusal to commute the sentence and to send the aged man to an insane hospital, was announced by Governor Whitfield after two alienists reported Wallace sane.

Among those calling on the Governor were seven of Wallace's sons, four in naval uniform. Seven of the boys were in the service during the World War, six in the navy and one in the army.

BETTY ALDEN'S COMMENT ON SOCIETY

Garden Club Show at Cohasset to Continue Through Tomorrow

COHASSET'S GARDEN CLUB SHOW promises to be a lovely thing, with Town Hall in that smart Summer community transformed into a walled garden, with small fences, rustic gateways, fountains and pools.

TODAY AND TOMORROW the afternoon hours are Garden Club hours—for practically every one of prominence thereabouts is a Garden Club member, and although this club is a comparative newcomer to the Horticultural Society fold, nevertheless it has much promise.

THE SHOW'S PIECE DE RESISTANCE is a reproduction of a prize-winning table decoration previously shown at the Horticultural Show. A famous Dutch painting has been copied, with its old-fashioned background of wall mantel and mirror, soft candle light and gorgeous vase of blossoms.

MESDAMES MATTHEW LUCE, Alanson Bigelow, Jr., Ralph Menard, Arthur W. Moors, George G. Sears, Hugh Bancroft, and many others of the socially elect are Garden Club members. The show is part of Horticultural Society requirements.

MISS RUTH THAYER, a visitor in Newport at the James Denison Sawyer place, "The Ledges," was trig and smart at her first Casino appearance. She wore one of those bright prints, of which she's fond, that serve admirably to set off her blonde coloring.

NEXT Saturday's birthday dinner-dance, celebrating the natal day of Mrs. Richard T. Wilson, is to be just the jolliest of occasions. Guests for the week-end putting up at Indian House include Stewart Baird, whose ill nobe and well-known young man about town.

OTHER HOUSE GUESTS of the Wilsons are to be Captain Thorburn Cruise, Robert McBride, Paul Phelan and C. Shelby Carter. The Jamestown estate of the Wilsons is splendidly adapted for activity entertaining—such as the Wilsons know so well how to stage.

EN PASSANT, Stewart Baird is pursuing a pleasantly diversified Summertime musical career, registering a decided hit in Barnstable when the Blue Tavern (sponsored by Cape Cod smart Summer colonists all the way from Provincetown to Woods Hole) opened its doors recently.

THE BAIRD REPERTOIRE includes settings from famous poems, impersonations (they say his "Raquel Meller" is well-nigh perfect), Negro spirituels and a skit called "Hata," this last a steamer concert bill-topper when Mr. Baird last crossed the Atlantic.

NEEDLESS TO SAY some Baird numbers will enliven the program Mrs. Wilson is arranging for her birthday dinner-dance. In August Mr. Baird appears at the North Shore under Mrs. George Lee's sponsorship.

BOXHOLDERS for the subscription concert at the Arts Association were Mrs. John Nicholas Brown, Mrs. Robert Goelet, Mrs. Arthur Curtiss James and Mrs. Cameron McRae Winslow.

THE COUNTESS ALEXANDRA BEROLDINGEN was of the pretty feminine / usher equad—which also included Miss Sylvia Hillhouse, Miss Natalie Winslow, Miss Edith and Miss Elizabeth Winslow, and Miss Elizabeth Kountze—girls who figure frequently in Newport doings.

TRANS-ATLANTIC TRAVELS are on Mrs. John Nicholas Brown's Summer schedule. She goes over in August for a brief journey that lasts but a few weeks—one of the frequent trips that both she and her son, the John Nicholas of millionaire fame make.

SAILOR COHORTS of the Eastern Yacht Club just back from a Maine cruise gathered last evening at the clubhouse for the weekly dinner-dance. Parker H. Kemble and Mrs. Kemble entertained, also James P. Parker and Mrs. Parker.

B. DEVEREAUX BARKER had a party. William Chisholm entertained; William S. Eaton, Mrs. Edwin T. Brown, Reginald Boardman, Thomas Sanders and Mrs. Francis R. Bangs also had reservations. The Brown party one of the largest, for fourteen.

MISS EMILY EVATT of Brookline and Little's Point, Swampscott, has been a much sought belle during her stay at the Hotel Wentworth, Newcastle, on the New Hampshire shore.

AS ONE OF LAST WINTER'S buds, of much beauty and vast popularity, Miss Evatt moved faithfully through a successful first season. Now the family is embarking on a gay Summer schedule at their new Shore home at Little's Point.

LYNN'S OLDEST MAN DIES IN 101ST YEAR

Lynn's oldest resident, William Foster Whitney, four months past the century mark, died at the home of his nephew, William F. Curtis, No. 172A Jennes street, in that city. He was a veteran shoemaker of 67 years' service, and one of the few who participated in the Knights of St. Crispin strike there in 1865. Mr. Whitney was born in South Boston in March, 1825.

HUB TO HONOR POLE FLYER

Colonel Umberto Nobile, builder and pilot of the airship Norge in its flight from Rome to Nome, crossing the North Pole with Amundsen and Ellsworth, is coming to Boston next Thursday, in response to an invitation from the Boston City Club and, the Italian consul at Boston, delivered to him on his arrival in Alaska.

Prominent Italian citizens and members of the City Club will escort him to the Copley-Plaza Hotel, where breakfast has been arranged in his honor. Official calls will then be made on the Governor and Mayor and officers at the Army Base and Navy Yard.

The general will attend a luncheon at the City Club, where he will be greeted by representatives of the Commonwealth, the city, the army and the navy. 'Tomboys' Raise Own Sex Health Standard

Des Moines, Ia., July 16.—"Tomboys" have gone a long way toward raising the health standard of women.

This is accredited to the health section of the Federation of Business and Professional Women's Clubs which urged upon the delegates in session here greater activity in promoting sports for women. Physical development is essential to their business success, it was pointed out.

The daring flapper of a decade or two ago can no longer be pointed at as a "tomboy," for she has done her sex a great service in the opinion of the committee.

3 EXPOSITION HANDS FINED

Philadelphia, July 16.—Four of Sesqui-Centennial Exposition employes arrested on warrants sworn out by the Methodist Committee of 100 charging violation of the Sunday "blue laws" of 1794 were discharged and three were fined $4 and $2.50 costs by Magistrate Fahnestock.

The four were released because no tickets were sold Sunday, the customers paying cash as they passed through the turnstiles. Those fined are Frank Kilfey, ticket seller, Arthur Kennedy, concessionaire and Anita Manley. Those released are Elizabeth Shaw, Junice E. Echolty, Otto Burghardt and May M. Cowchak.

Argument will be heard Monday on the Methodists' application for an injunction to close the exposition.

'LOST' PASTOR IS SENT HOME

The aged penniless Episcopal minister, who was picked up on Boston Common helpless, looking for the Diocesan House, headquarters of the Episcopal Church on Joy street, has been cared for by the Episcopal Women's Association.

Suffragan Bishop Samuel G. Babcock, before whom the case was brought, was willing to do anything in his power to relieve the unfortunate clergyman and offered to pay his expenses home, but these were met by the women's organization.

It was found the clergyman was suffering from amnesia, and will be cared for without assistance from the Church Pension Fund.

GIRLS OF 11 ROB BOY IN HOLDUP

Pawtucket, R. I., July 16.—On his way to the nearby grocery store to buy a quart of milk, Thomas Jamieson, 5-year-old son of Mr. and Mrs. Andrew Jamieson, No. 631 Weeden street, was robbed of $1.

The theft was committed by two girls, about 11 years old. The girls grabbed the youth just before he entered the store, wresting the bill from his tightly clutched hand, as the empty milk bottle fell to the ground.

WOMAN STABBER IS PUT ON PROBATION

Pleading guilty to slashing Frank Perry, "star boarder," Mrs. Isabella Maderios, 32, divorced mother of two children, was placed on probation for two years by Judge Raymond in Suffolk Superior Court. ASK GIFTS FOR SHUT-INS

For fifty-seven years, the Benevolent Fraternity and Flower Mission of Boston has distributed flowers, fruits and vegetables to the sick, shut-ins and poor of New England. Hampers, full of good things, have been carried free by the railroad officials, thereby cutting down the expenses.

Centers of distribution are: North End Union, Bulfinch Place Church; South Bay Union and Robert Gould Shaw House.

The organization is stationed in this city in the basement of Horticultural Hall, No. 300 Huntington Ave., under the charge of Mrs. George H. Root.

Mrs. Root, in speaking of the backward season, said: "Contributions and gifts have not been as heavy as in former seasons.

"If people only knew what joy and delight are given by sending these gifts into the homes of the poor, the sick and the shut-ins, they would be moved to give generously towards this cause."

BOY PROUD OF 1500-MILE HIKE

Louis Hosch of Louisville, Ky., walked and caught rides from that city to Portsmouth, N. H., en route to Star Island, attending the sessions of the Laymen's League on religious education.

Louis is only nineteen, but nothing ever stands in his way. If he has not the money to travel in the usual way, he just walks. If necessary, he can sleep on a pine board or any other flat surface.

In explaining his journey, he said:

"People were kind all along the 1500 miles. I had nothing hard to meet. I have nothing to regret. I saw much of the country and would do it again. Once in a while, I got a ride. Then I had to wait sometime for something to eat. I always had an appetite. When I got through on Star Island I may walk back.

MISS BRANDEIS ASSAILS SUIT

New York, July 16 (A.P.)—Suit of the Interborough Rapid Transit Company against striking subway workers for $250,000 damages is but a bluff, in the opinion of Miss Susan Brandeis, attorney and daughter of United States Supreme Court Justice Brandeis. Parallels drawn by company attorneys to the Danbury Hatters' case, in which employers got damages from strikers, were not valid, Miss Brandeis told 600 at a meeting.

Miss Brandeis

The difference lies in the fact that the subway strikers are secessionists from a company union to which they were forced to belong, she said, and therefore they have not broken a voluntary contract. The company union has a no-strike agreement with the company.

DRIVERS SAVE YOUNG LEEDS

New York, July 16 (A.P.)—Four ambulance drivers for the Metropolitan Hospital today believed themselves the rescuers of William R. Leeds and two companions from a speed boat that struck a reef while the tin plate millionaire's son was trying it out for his wife, the Princess Xenia.

An expensively fitted 56-foot launch crashed into a reef during a driving rain near Welfare Island, where the hospital is located. The ambulance drivers, Joseph Metz, William Reynolds, Peter Hohnidcage and Thomas Kilbride, heard the crash and rushed out from the hospital garage.

They waded to the boat and found its stern under water and the three men wailing in the darkness with lifebelts on. The chauffeurs helped the men ashore, then moored the boat to the bank.

One of the men telephoned to Oyster Bay and a chauffeur of one of two large automobiles that came for them said to the ambulance drivers, "You don't know how lucky you are. You pulled William B. Leeds out of the water."

METHODISTS ASSAIL "WET" PROPAGANDA

Lake Junaluska, N. C., July 16 (A.P.)—The nation is now confronted by a "highly organized, subtle, determined and reckless effort to discredit national prohibition," the social service committee of the Methodist Episcopal Church, South, found in its report to the annual social service conference which has just ended here.

The real motive, the report said, "Is the restoration of the pre-prohibition orgy of drunkness, vice, political corruption and economic waste. Were there any need for further denial of the claim that national prohibition is a failure, these determined and costly efforts at repeal would be sufficient. The national prohibition legislation, despite its failure in the wet areas of New York, New Jersey and Pennsylvania and afew other, regions of large cities, has been a distinguished suc-

TARNISHED WINGS

by BEATRICE BURTON
Author of "GILDED KISSES" and "PIRATE OF HEARTS"

Story of a Boston Girl Who Liked Jazz Music and the Bright Lights

"I won't have this," shouted Moms at Jimmy. "I'll put you in the detention home first.

READ THIS FIRST

MERRY LOCKE, pretty and gay as her nickname, has been a flirt all her life

Her father dies, and she gets the job of assistant in a Boylston street beauty shop. Moms takes a roomer into the house to help make both ends meet.

Merry falls in love with ANTHONY GAINES, a sober-minded young lawyer who wants to marry her. But Merry is afraid her feeling for him won't last. And so she and Tony decide to wait six months before they marry.

Then one night, when Tony breaks an engagement with her, Jerry, hurt and angry, lets DERRICK JONES, who lives next door, make love to her as he often had before she met Tony. Then she goes out with BILL ERSKINE, a friend of MORELEY KAUFMAN, for whom her sister CASSIE works. When Tony hears about this he shuts up his office and goes to Montana to practice law. A letter comes from him, but it is lost around the house before Merry has a chance to read it. She puts Tony out of her mind, gradually.

Her oldest sister, HELEN, marries. Then Cassie marries the wealthy Morley Kaufman. JINNY, the youngest of the four sisters, takes DERRICK JONES away from Merry, and Merry feels very much deserted and "on the shelf."

When Bill Erskine comes back into her life, she welcomes him eagerly. He sends her presents, comes to see her whenever he comes to town, tells her he loves her, but never asks her to marry him. Still, Merry feels sure that she can marry him when ever she puts her mind to it.

MURIEL KAUFMAN, Cassie's young sister-in-law, urges Merry to own part of the beauty shop, and on Christmas Eve, when they are having dinner in Boston, Merry tells Bill Erskine she wants to borrow some money from him.

Christmas morning Merry answers the doorbell, thinking that Bill is calling. (NOW GO ON WITH THE STORY.)

ON the porch stood a small, freckled messenger boy, holding a green pasteboard box that was almost as tall as he was.

"Mrs. Locke?" he asked, squinting past Merry.

"Miss Locke," Merry answered, and took the box.

But the love-in it were not for her.

They were poinsettias—a whole dozen of them. And among those gorgeous red velvet blossoms and dark leaves was tucked a tiny envelope with Mom's name on it.

"Moms! Somebody's sent you flowers," Merry called, carrying them out to the kitchen. "Poinsettias, with stems a yard long."

Moms was sitting at the table by the window, peeling potatoes. She looked up as Merry came into the room.

Now, who do you suppose was

WEATHER A BIG FACTOR FOR OUR FARMERS

By FRANK H. MELDON
Financial Editor

Dr. Arthur M. Hilbert, Commissioner of Agriculture for Massachusetts tells me "If one could have advance information as regards the weather it would be easier to give an opinion of the outlook of the New England farmer. Nature has a way of making us in the Fall much of what she may withhold us in the Spring."

That a long favorable Fall will not make up entirely for a backward Spring, inasmuch along with a slow, cold start goes often a poor stand of crops. A smaller percent of seed will germinate under these conditions, also it seems that the

Jesse Livermore
Dr. A. W. Gilbert

cut worm and wire worm and other pests thrive in a wet Spring.

"Hay, the most valuable crop in New England, is hurt on account of dry weather until the newly seeded land and fertilizer are showing a good yield. Pastures are short for the season. All spring crops, including tobacco, are uneven and backward. Onion sets look well and potatoes fair.

With a favorable Fall season many crops will come through in average shape.

State street hears the usual stories that the continued advance in stocks has hit Jesse Livermore former Boston "boy wizard" of the stock market. He is reported to be short of the market on a rising scale and that he will be lucky if we should get a reasonable "Jesse" Livermore shock out.

Recently we called attention to the likelihood that the Venezuelan oils would soon be a factor in the market action. Appreciation of Venezuela's oil possibilities to the country has not yet come to the attention of most investors. However, has turned its eyes Venezuelward at last, saying "The vagaries of crude oil production in Venezuela are interested by the march of events in the groups. Mexican production has been curtailed by the war in Mexico and California is simultaneously gushing its daily average output of more than 300,000 barrel mark. Together, they yielded 87 per cent of the ground and topped the world's total.

"But Mexico started sliding late in 1923, when salt water intruded, and its oil output has dropped 75 per cent. Meanwhile [illegible] Venezuela's production was increased and Venezuela was really out on the map as a producing country in every sense of the word. Its reported produce last year in barrels was nearly and last year its world ranking was 3,000,000 barrels less than in 1923.

* * *

"The development of the group's properties in Venezuela has been extremely rapid. It is of decided interest to the General Asphalt holders, as that company has a partially interest, about 15% per cent, in Venezuela's production in 1926. The Dutch group produced about 1.5 barrels daily there, or a total of 500,000 barrels for the year. In the year the Venezuelan properties were developed to a point of production where they yielded 12,256,310 barrels, an average of 34,000 barrels daily, with production at the end of the year much above that figure."

I hear Weston Electric, which [illegible] is [illegible] dividend [illegible] to be coming about 3% a share this year for the "B" stock after deducting the $2 "A" dividend. Record activity has been accomplished by predictions of $2.5 to $30 a share earnings for the "B" stock, which sells around $18. The activity has been partly due to buying for the account of a New York house. The "B" stock is payable at $7.50 in December, 1927. The company has been buying its own "A" stock for over a year. Recent quotations have been around $31 a share. Weston has been in business about 60 years, making all kinds of fine electrical equipment. Radio parts were added to the line with the advent of the invention.

FINANCE

By B. C. FORBES

Business success usually is won by forescoring changing conditions and energetically taking advantage of them. A serious problem confronts many manufacturers.

The steady growth of chain business is reducing the number of small retailers and of small businesses all over the country. Systems of chain stores, we all know, are taking the place of the individual storekeeper, and in many industries small distributors, alone, are failing by the wayside, under competition from stronger interests.

How shall manufacturers, who have been doing business wholly through jobbers and through retailers and small tradesmen, meet the new conditions.

Take the case of a manufacturer whose output is sold wholly by jobbers and whose product is favored by independent retailers because it has been generously advertised nationally.

If this manufacturer consents to sell direct to chain stores, mail order and other very big retailers, how will he treat the jobbers? Naturally and the patronage of jobbers and of independent retailers, for the reason the powerful retail buyers the same prices and terms granted jobbers ordering wholesale quantities. The independent merchants regard themselves as discriminated against, since the chain stores and mail order house undersell them.

This whole question of national distribution is agitating the business world. Changes are coming. Old methods cannot always be adhered to without entailing severe loss.

For example, the manufacturer of one product of high grade and nationally known, who has been doing all his distributing through jobbers, the product to be used mostly by small shops, finds that the number of these small shops is rapidly decreasing and that the larger concerns are disposed to buy direct from manufacturers. Heretofore he has refused to sell except to jobbers [illegible] [illegible] [illegible]

Rain Vanishes

New York, July 16 (AP)—Fair weather was reported today by the weather bureau for the light heavyweight championship contest between Paul Berlenbach and Jack Delaney at Ebbets Field tonight.

Promoter Humbert J. Fugazy received permission from the State Athletic Commission to hold the contest Monday night if rain interfered again today.

Challenger Is Now Quoted at 11 to 10

By DAVIS J. WALSH

New York, July 16 (INS)—Rain which had fallen steadily most of the night stopped about 9 o'clock today and the indications at that hour were that the Berlenbach-Delaney fight would take place tonight. Clouds still kept the sun out of sight, but the weather man predicted that they would vanish during the day.

The dog nights shortened the odds on Delaney, the challenger being rated as an 11 to 8 choice today where yesterday he was quoted at 5 to 5. A price of 1 to 2 was named that he would win by a knockout.

In the event of another postponement, the fight will be held tomorrow night at which event the principals will have to weigh in again at the Fight heavyweight limit of 175 pounds tomorrow afternoon. They will not be required to weigh today.

Why They Call 'Em Senators

THE first baseball team in the nation's capital was back in 1886, the year during which the Civil War broke out. This team established a remarkable record in winning all its games. The name given the outfit was "Nationals."

Even today the Washington baseball team is sometimes termed Nationals — but regularly, in fact, in Washington itself. But the whole origin never took with the public.

The reason is obvious. The field from which to choose a better nickname is too fertile. Washington being the nation's capital, offers a wealth of prefix to newspaper columnists' cartoonists and writers. The name naturally turned upon for baseball team would be "Senators" as the poor fellows seem destined to be the butt of all comment of whatever nature which has anything to do with Washington.

That's how the name originated in the newspapers. And, like many another newspaper name it stuck.

Tomorrow the nickname of the Giants will be explained.

Herman to Meet Chapman in Tilt for Boxing Title

New York, July 15—The New York Boxing Commission today named Babe Herman of California as Red Chapman's opponent for a world's feather weight championship match which will be staged at the Queensboro Stadium on July 27.

Chick Suggs also was considered but Herman was given preference.

Boxing Board Splits Over Jack Sharkey

New York, July 16 (A.P.)—A situation has developed in the councils of the New York State Athletic Commission which undoubtedly will bring joy to Tex Rickard in his efforts to promote a heavyweight championship battle between Jack Dempsey and Gene Tunney.

Voting on the question of permitting a Jack Delaney-Jack Sharkey fight at Ebbets Island Stadium in the near future, the officials divided 2 to 2, Chairman James J. Farley and Lawson Harmon Purdy voting against the match and Commissioners Georges Carpentier and William Muldoon favoring it.

Brower himself is questioned the right of Purdy to vote and if his argument prevails Rickard will be free to carry on his bout outside the state, as both Muldoon and Brower favor a "hands off" policy.

Farley would take away Rickard's Madison Square Garden license or accomplish some other punishment for the promoter who would not put Dempsey and the negro, Harry Wills into a ring together.

Also the Delaney-Sharkey bout could go on, despite a ruling of the commission, following the Berlenbach-Risko match last year that a champion could not meet boxers of other weights. Delaney would be affected only if he defeats Berlenbach for the title tonight.

Ticket Fakirs Selling Dupes

Hundreds perhaps the hands of fake tickets have been sold for light heavyweight championship bout between Paul Berlenbach and Jack Delaney at Ebbets Field. Discovery of the fraud was made yesterday by the officers of Humbert Fugazy, promoter of the big title battle. He warned those still buying to go only to the regular agencies.

A buyer of a fraudulent ticket compared his with one of the bona fide tickets and it was found that the face pasteboard was about one-eighth of an inch smaller than the genuine ticket.

Extra men immediately noticed and detectives started to do investigation. Fugazy told Sport writers special men will be placed at each gate to give every ticket a thorough inspection."

BOTH BOXERS CONFIDENT AS BATTLE TIME DRAWS NEAR

By PAUL BERLENBACH

I am ready for the battle of punches tonight and will leave the ring with all of my honors. I believe the postponement has helped me more than it has Delaney. Personally, though, I wish the contest had come off on schedule as the world would now know that I am master of Delaney.

By JACK DELANEY

The rain only delayed my triumph over Berlenbach, until tonight. Some people argue that the postponement will enable the champion to be heavier and stronger than would otherwise be the case.

Hagen's Advice Good, Says Wethered

LONDON, July 16 (A.P.)—Roger Wethered, former British amateur champion believes that Walter Hagen gave British golfers good advice in his recent interview, even [illegible] he didn't say [illegible] darned easy."

Loaded Gloves Prove Boomerang as Kearns Suffers Knockout

THIS is the fifth chapter of Jack Kearns' thrilling story, in which he replies to the charges of Jack Dempsey. He is the first fame that the man who put Jack Dempsey on the pugilistic map tells of his experiences when he was a prize fighter. Read this story every day in the Boston Evening American.

By JACK KEARNS
FIFTH CHAPTER

I BORROWED and begged all that I could lay my hands on to bet that Eddie Merino would stay the limit with Abe Attell. I want to say that Abe made it the best looking fight I ever laid my eyes on. Both of them were covered with blood. That's what an artist Abe Attell was.

Jack Kearns

He took them on beezer to make it look good. There never was one quite like Abe. What a showman!

He went on to Frisco and I took Scaler and Merino and hopscotched to Calgary, Canada. Billy Lauder was the lightweight champion of Canada and a good man, too. I matched Merino with him and Eddie got beat.

He thrashed Scaler and I said to myself, "This will never do. I'll fight this guy myself for the championship. I'm the champion as it is," I told them. "Didn't I whip the champion, Mike Ward, and has this guy ever beaten Ward?" So I matched myself with Lauder.

Well, we drummed it up fine. They got really excited about it, and the night of the fight a big crowd turned out to see Lauder fight Young Kearns for the title. I had gone into training.

Fight night I got out the old tea lead and loaded up the hands good and plenty. When I was ready to enter the ring my fists were as hard as hammers. I had laid little strips of tea lead between each wrapping of the white bandages and this was topped with fire tape.

Kearns Bets Bankroll on Himself

[illegible] was the one and only [illegible] Lauder. We fought in the open there. The ring [illegible] I hadn't [illegible] on top of the head and he went right down on his tail.

Jack Dempsey

He had a rubber ear for he bounced right up again, but I almost laughed in his face when I saw the big lump over his forehead where my fist had landed. It stuck out like a bull's horn.

I dropped him with the second punch, too high but right opposite the other one. When he got up again I laughed in earnest. Now he had two horns and he looked like the real old devil himself.

I'll swear, every time I hit that fellow you could see the lumps grow right up under the gloves. He was an awful scrapper, but was he game? I'll say!

The crowd was as one mad man turned loose. I was giving them a run for their money and how they were eating it up. I was beating the tar out of him and you know how the small town fight fans delight in seeing the wolf-hard boy get avenged.

I was doing a great job, and then it began to dawn on me that Lauder was leaning on the floor when I dropped [illegible] and as the fight went along he wasn't hitting the floor as often as he had been.

Tea Lead Turns Out as Handicap

And then the tea lead began to tell, not on Lauder, but on me. I got a bit panicky when my lead-loaded fists began to get heavier and heavier. After a while I couldn't get them up over my waist line, though Scaler and Merino in my corner were yelling: "Keep your hands up, keep your hands up."

Those mitts were weighing one hundred pounds each so far as I was concerned. Finally I couldn't get them up at all!

I began to block with my nose. I stood all of this that nature would allow and then I started to buckle at the knees. No use. I knew that our dough was gone.

[illegible] I can't get [illegible] and I [illegible] now to [illegible] I take a few [illegible] but with [illegible] I [illegible] on [illegible] and [illegible] I [illegible] and [illegible] and they all but [illegible] me in a [illegible] of the [illegible] and [illegible] of the [illegible] Scaler was [illegible] and [illegible] of [illegible] Then [illegible] the last of [illegible] of Bad Lauder.

RAILROAD TICKETS TABOO.

Then I [illegible] every old [illegible] I owned [illegible] over [illegible] time [illegible] I got at all [illegible] I wasn't afraid of a [illegible] Scaler was, for one thing I had [illegible]

I never bought a railroad ticket in [illegible] Uncle Sam was a great [illegible] the [illegible] rides. If I [illegible] to [illegible] between Butte and Frisco [illegible] was the old freight train for mine, the front end, th shank or inside. I wasn't particular where I rode just [illegible] I rode and got somewhere.

Sometimes now I sit in a [illegible] drawing room and have a quiet chuckle for old time's sake. And I don't say that I am happier. There was something [illegible] about the [illegible] in the [illegible] of the old [illegible] You don't [illegible] the [illegible] out of the [illegible]

I drifted back to fighting on my own [illegible] from Frisco to Butte to Spokane and back to Frisco. I fought Kid Parker in Denver, Tom my Trans at Vancouver, Mysterious Bill Smith at Portland and others [illegible] Walla Walla [illegible] to Canada to even old scores. I guess I [illegible] sixty or seventy fights [illegible] All [illegible] I [illegible] [illegible]

HYLAND FORCED TO QUIT

[illegible] Pueblo [illegible] Mexican Thompson in Cripple Creek [illegible] a good man. He [illegible] Hyland and many of the [illegible] fame of the day. I [illegible] Calgary with [illegible] and Abe Attell [illegible] Wenzel knocking him out.

Then I [illegible] up. Dick Hyland and I [illegible] Frisco. The [illegible] Rooters' club [illegible] Jones. There [illegible] a bunch that used to [illegible] stable boys. Gore joined the outfit. As a traveling company we were not a permanent outfit, but we were always fighting. We drew [illegible] Hyland [illegible] Johnny O'Leary. I advised Hyland to give up the ring. He was about through and took my advice. He joined the [illegible] and never fought after that.

I quit the fighters. I opened up a cafe in San Francisco called "The Breakers" at Ellis and Mason. Jimmy Kelly had a place on the opposite corner and Johnny Crowley was sandwiched in between us with a place called the Rack Cat.

Now old Cap Hays
Was a sad-faced party,
Never pulled a laff
That was hale and hearty.
Sot in his ways
Like a stubborn mule,
And lived his life
By the ancient rule.

Didn't give a hoot
For a new idear,
Looked on Progress
With an eye of fear.
Smoked the same cig'rette
From ingrained habit,
And didn't know why
No more'n a rabbit.

Today Cap Hays

His mate, Moran,
Worked a magic plan
He slipped OLD GOLDS
In Hays' ditty box.
Gave him a thrill
From his bean to his sox.

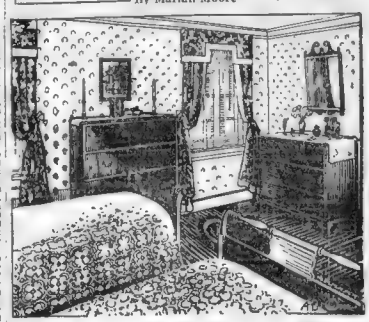
Furnishing the Home

By Marian Moore



EVERY attic contains an old maple commode from grandma's house. Please bring it down at once and reinstate it into its rightful surroundings

Building up a colonial room is a fascinating process and the result will appeal equally to the growing daughter, the aged relative or the fastidious guest

Thanks to the simplicity of colonial lines, you will easily find an old chest of drawers to match your own commode, while maple beds come in a variety of designs to suit individual tastes. The proper background for a colonial room is a plain wall, paper in a neat chintz pattern, set off by overfall wood work. Green is particularly effective as it contrasts excellently with the white tones of old maple. The same shade of green edges the cretonne drapes whose design is fashioned after those of the seventeenth century. Some of the cretonnes are completely covered with imitation knotted lace spreads, as pretty as heirlooms though less precious.

Ornaments should meet modern feminine requirements while preserving a general air of Puritan simplicity. As the commode top serves as dressing table, a mirror in a colonial frame is hung above. On a white linen scarf a few simple articles may be displayed. French ivory brushes and hand mirror, mothys, tinted glass jars with dainty bouquet tops for vanity's sake flowers in a vase and a photo of a dear one, for sentiment

CHAPTER XLIV

September 7th.

HALLIDAY has saved me from arrest, by giving to the police the information which he has been gathering on the case all Summer. Has made a quiet gesture, which is like him, and given me back to life, and the pursuit of literature.

He came out late last night, and I understand is still asleep. He has had very little sleep, poor lad, for a long time.

I myself collapsed this morning, and Hayward has put me back to bed. Edith, spreading my coverings neatly before Greenough, came up and says I am now so thin that:

"You really make a hollow. Will 'arn. If it were not for your feet, nobody would know you are there!"

It is impossible to record in detail my conversation this afternoon with Greenough, covering as it did more than an hour. He came in, I thought, slightly uncomfortable and perhaps a little crestfallen, and I motioned him to a chair.

"Well, professor," he said, "it's a darned queer world, there's no denying it."

"The world's all right. It's the people in it who mess things up."

"Like fleas on a dog," was his rather abstracted comment.

"Sort of had us going, you did there for a while!" he said. "But I was getting pretty close to the facts before this dairy came along. Of course, it helped."

He had Gordon's diary in his hand.

"Naturally," he said, fingering the book, "your young friend's information was valuable; 'tho not discounting that 'The hand-print on the window board,' for instance. I'd have found it sooner or later, but it saved time. And the young lady, too. She's done her bit, all right. I've been handicapped by being too well known around here. And Starr's a fool."

Who Helped?

He snapped out this last statement, and I gathered that he was still smarting under the knowledge that, without Halliday and Edith, he would still be nowhere. It was, more or less, his defense.

"Of course," he said, "ever since we got hold of this diary of Gordon's, one thing's been pretty clear. Bethel wasn't working alone, according to what I saw of him it wasn't possible. He couldn't even have made a getaway without help. The only question was, who'd helped him."

"So you picked on me?"

"Well," he said wryly, "you'll have to admit that you're secured to go out of your way all summer to get into trouble! As a matter of fact, I didn't pick on you; it was Gordon." He looked at my clock.

"It's only got an hour," he said. "Your niece is sitting on the stairs now, holding a stop-watch on me. I can't read you this thing, but I can tell you what's in it. And, believe me, that's plenty."

Briefly, then, the deciphering of the diary had left me in a very bad position. When they had finished it, it was Benchley's idea to arrest me at once. They had the boy's body, a fact they had kept to themselves, and I was within an ace of a charge of murder.

But Halliday had stayed.

"He seemed to feel there was trouble coming," Greenough said. "He hung around and drove us all crazy. He insisted, as he'd brought the key, in the right to read the stuff as it came through; and as it went on, he didn't know exactly what to do."

Halliday's Trade

"Finally, seeing what was in the air, he made a trade with us. He was willing to have you brought in and interrogated, but on condition that if you weren't held he'd come over with something of his own. You get the benefit, of course. There's a reward involved, and he'd been holding out on us a bit," he waved his hand. "That's natural. We don't hold it against him. But the point is, he made his trade."

Coming to my examination, my answers had apparently impressed Hemingway sufficiently, on the other hand, added to the diary's constant prejudice of Miss Greenough's own case against me. He passed over that rather airily.

"I wasn't trying to make out a case against you," he said. "As a matter of fact, you couldn't have been the man who attacked Halliday. You weren't here."

"Naturally," I agreed, gravely. "I wasn't here. Of course, if I had been here——"

He glanced at me quickly, but went back to the night of the inquiry.

"The question was, whether to hold you or not. You may remember Hemingway going out, when it was over, and talking to Halliday outside? Well, it was then he made the trade."

Apparently the fact that Gordon had been the victim had not been the surprise to the police that it had been to me. For one thing, the microscope had shown one detail which the detectives had not mentioned to me at the time. Caught between the handle of the knife and the blade had been a short piece of hair. The microscope showed this hair not only to be, as a matter readily determined, and the approximate color of Gordon's; it also showed it liberally coated with pomade. Poor Gordon's distasteful, varnished hair!

Bethel's Enemy

But Greenough had been inclined at first to think that there had been two men acting instead of one.

"Dying and passing on," he says, "is not like taking your thumb out of a bowl of soup. It's bound to leave some sort of a hole."

And there had been no hole. If Bethel had died and passed on, no one apparently missed him. As time went on and no queries were received, the thing began to look ominous; as though Bethel himself had been hiding away, under a assumed name.

The idea that Bethel had had an enemy from whom he was hiding, and who had found him, began to interest itself.

"Hat," he said, with engaging frankness, "that eliminates you. And you wouldn't be eliminated. You were like some people you've been, when there's a rumor-mon about; always getting in front of the machine and into the picture."

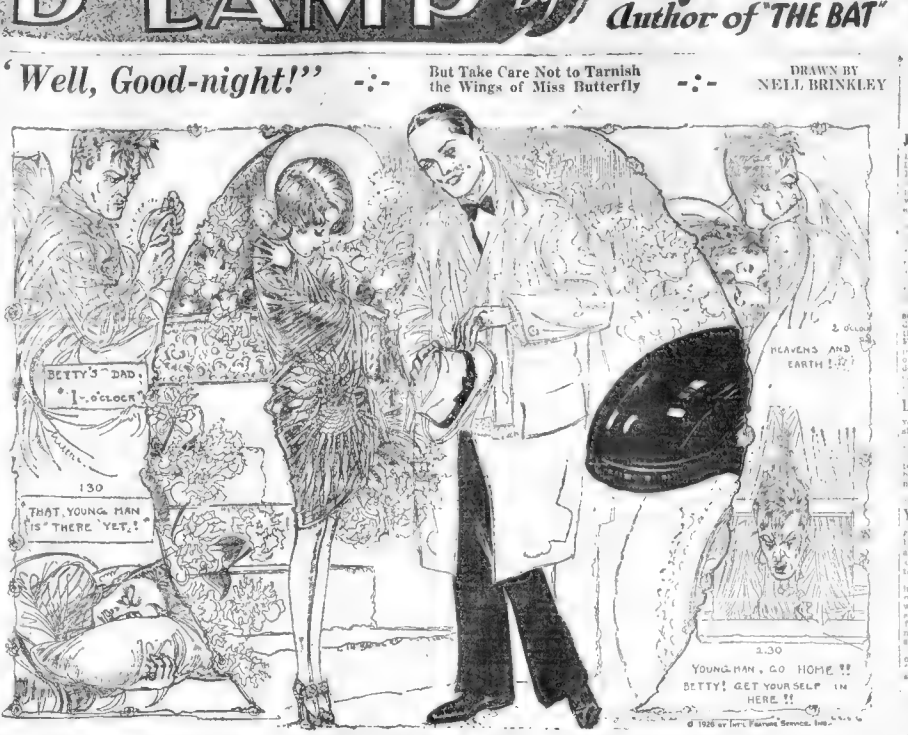
"Well, Good-night!" -:- But Take Care Not to Tarnish the Wings of Miss Butterfly -:- DRAWN BY NELL BRINKLEY



THIS was intended to be funny—but I wonder? It always has made folks smile—that idea about the length of time it takes lovers to say "good night." It's not funny to the lovers and it's not funny to the baby-girl's Daddy.

The bird-like little flapper and the admiring young man who is delivering her home in the witching hour of 1 A. Romance is their whole existence right now. Haven't you ever stood in the moonlight too long with someone, someone?

But—don't get mad at Daddy when he wants you to come home early and come straight in without any lingering "good night." fool enough to send me all those expensive flowers?" she sniffed. "Fatty, I suppose."

"Fatty" was what she always called Bill Erskine, behind his back.

"Yes, they are from Bill," she said, opening the little envelope on her mother. "'Merry Christmas for Mona,' he says."

Mona? Up curled scornfully.

Merry's Trouble

Suddenly she drew a quick breath and a look of horror swept over her face.

"Ye gods and little fish-hooks!" she cried. "I haven't bought any Christmas present for him! I meant to get something for him—and then I just forgot it, I guess! Oh, my soul, what will I do?"

She made a movement with her hands, almost as if she were ringing them.

"I remembered everybody else," she finished.

Perhaps Jinny could help her out! She rushed to Jinny's bedroom—and of gift for the infatuated Derrick.

"Jinny!" Merry called at the top of her voice. "Jinny, what are you going to give Derrick for Christmas?"

"A bill fold," Jinny's soprano voice floated down from upstairs, where she was making beds and dusting. "A leather bill fold. Why?"

"I want you to give it to me, instead," Merry asked, when she was halfway up the stairs by this time.

"You see," she explained, going into Mona's bedroom, "I forgot to get anything for Bill Erskine—"

Had skin trouble so bad was ashamed to appear in public

Resinol completely healed it

Entriken, Pa., March 4—"Last summer I had a skin affection on my face, hands and wrists. It kept spreading until I could not shave and hated to be seen in public. The itching was very annoying and nothing I tried gave me any relief. A friend recommended your Resinol Ointment and I bought some at once. The first application gave me relief, but I continued using it freely and in a very short time the itching disappeared and the trouble was completely cured. Needless to say, I have great faith in "Resinol" for skin disorders." (Signed) J. H. Kutterman.

"And you want me to give you Derrick's present so you can give it to him?" asked Jinny, getting the idea at once.

Merry nodded briskly.

"Well, you must think I'm crazy!" Jinny retorted, with a withering look. "You must think I come from the place where the woodpeckers get up the railroad station every night! Why should I let you have Derrick's present for your Wop boy? Why didn't you buy him something yourself?"

She straightened the window curtains, picked up a thread from the carpet and went out of the room, humming to herself.

Merry followed her across the hall to Jinny's own little bedroom. She went to her and put her arm around her.

"Jinny, please let me have that bill fold, darlingest!" she pleaded. "You've known Derrick so long that he's sure to understand the whole thing when you explain it to him. But if I don't give Bill a present I'll never be able to square myself with him. He'll think I don't care a bit for him."

"Well, you don't, either!" Jinny came back at her. "If you did you would have bought him a Christmas present, wouldn't you? The trouble with you, Merry, is that you've never honder with your men friends. Even Derrick says you're as two-faced as a totem-pole!"

"Derrick!" Merry cried. "He's a fine one to talk, isn't he! I suppose he didn't start playing around you about a week after he asked me to marry him, did he? He's not two-faced. Oh, no!"

But she knew that it was useless to argue with Jinny any longer.

She went downstairs to help Mona set the table for dinner.

Even if she had bought a Christmas present for Bill, she could not have given it to him that day, as it turned out.

For at two o'clock, just as she was sitting down to dinner with Mona and Jinny, she began to feel sick. Not just hot and dizzy, as she had been all morning, but dreadfully sick.

Pains shot through her chest and stomach. Pains that took her breath away, and made her double up like a jack-knife.

Merry's Promise

The meal grew cold on the dining room table while Mona and Jinny got her upstairs and into bed. She writhed and twisted and cried out in her agony. The ginger-tea that Mona forced down her throat only seemed to make her worse.

"I'm dying! I'm dying!" she declared in gasping shrieks. She thought that she was.

But Mona knew better.

"No, you're not!" she said firmly. "But you will if you don't swallow some more of this ginger-tea! You're having one of those stomach attacks that your father used to have when he was alive, that's all! Now, open your mouth and take this, and no more nonsense!" She held the cup over tea to Merry's coolness lips and made her drink it to the last soothing drop.

"You've just eaten something that's upset your stomach," she added, nodding her head wisely. "You probably had lobster salad, or some such thing like that. I'll tell you in a few minutes if you've got it out of your system when you eat in one of those restaurants!"

But Merry shook her head and moaned. She knew only too well that it was not food that had made her ill. She knew perfectly well what it was: last night's liquor that had laid her low.

"Never again!" she groaned.

"What's that you say?" Mona asked sharply.

But Merry pretended not to hear her. Her lids were closed, and her lips were open as she breathed. All the apple blossom color was gone from her face, leaving it a greenish white.

Merry never drinks, does she?" her mother asked Jinny, when the two of them sat down to their dinner a few minutes later.

"No, indeed" answered Jinny, who thought that she was telling the truth.

Merry spent the next few days in bed.

Jinny's Plans

She had caught cold, and she was afraid that she might not be able to go to the New Year's Day party that Cassie and Morley Kauffman were going to have. So she stayed at home and let Mona "doctor" her. She was the only one in the family who had been invited to the party. And she knew that it was not because she was Cassie's sister that she was invited. It was because she was a friend of Morley's friend, Bill Erskine!

"Cassie's getting to be a snob, if you ask me," she said on New Year's Eve. She was sitting up in kimono and slippers, watching Jinny dress to go out.

"She always was one," answered Jinny, slipping one of Cassie's cast-off evening dresses over her little red head. She smiled at her dazzling reflection in the old mirror above the dresser.

"I certainly expect to have some time on this bravet tonight," she chanted happily. "Some of Derrick's fraternity brothers are giving it and they've got a cask of gin. How many bottles is that?"

"Twenty-four," Merry told her. "But you don't drink, do you?"

Jinny's shining brown eyes met hers in the glass and winked at her.

"Something tells me I'm going to tonight," she said cheerfully.

"Don't you do it," her sister warned her. "You never know what kind of stuff you're getting these days. And, anyway, Jinny, it'll make you sick and dizzy, and you won't look pretty. Women look horrid when they're drinking."

Jinny only raised her arched eyebrows.

"I certainly love the way I look in this green dress," she murmured. "If only I had a dancing slave and a gold cigarette case, and a hunted-looking cocktail to wear I'd be perfectly, madly, wickedly——"

She waved her hand and danced down the stairs to join Derrick, who had been honking his horn in the driveway for the past ten minutes.

Merry went to bed at ten o'clock. Several hours later she woke up again.

Her room was still in darkness. She stretched up her arm and switched on the light. The clock on the bureau made out showed that it was five o'clock. Across the room Jinny's bed was still empty.

Jinny's Plight

Downstairs she heard a door close and then the sound of an automobile in the driveway below the windows. Then angry voices talking in a loud jumble in the lower hall of the house.

She got out of bed and ran halfway down the stairs.

There was a light in the dining room. Mona stood at the foot of the stairs. She was fully dressed in her old brown and citron and she was staring at Jinny, who had just come in.

Merry stared, too.

Jinny was a different creature from the sparkling, [illegible] who had waved her hand and run out of the house a few hours before.

Her eyes were glassy and there was a lop-sided smile on her little mouth. One cheek was smeared with rouge and the other was dead white. In one of her hands she carried a bedraggled bouquet of flowers that had once been white and were now a brownish yellow.

"Ring out, wil' bells to the wil' sky," said Jinny, poetically.

ADVICE TO LOVELORN

By Beatrice Fairfax

DEAR MISS FAIRFAX

I have been going out for the last six months with a young lady. I saw her practically every week. Last Christmas I gave her a [illegible] pin. [illegible] returning when my birthday comes, as it will [illegible]

By all means, give her an impersonal, inexpensive gift for her birthday if you continue her and enjoy the privileges of her friendship. Flowers, candy, music, a fountain pen or pencil, a phonograph record or books would be suitable. But don't accept any gift from her. Just [illegible] unsolicited.

DEAR MISS FAIRFAX

I have loved a girl for three years. She has also loved me ever since she has known me. [illegible] mother gave us walking out in the street and now she isn't allowed to go out, as I can't see her to talk to her. She is of foreign birth. My parents tell me to have nothing to do with her.

I can't stand being away from her. What shall I do?

YOU don't mention your age in your letter nor that of the girl. But I think you are [illegible] old enough to decide for yourself. If you are wise you will follow the advice of your parents in this matter, their judgment is better than yours. If your love is more than infatuation, it will stand the test of time and even [illegible] years, when the [illegible] are so much [illegible] to decide for herself. [illegible] a friendship. Meantime [illegible] to [illegible] not, both of you, go [illegible] all your [illegible] and [illegible] time too [illegible]

Being a Wallflower has always been an expression synonymous with misery. Therefore, it is most strange that the very popular, newest beige shade should be named "wallflower."

Avoid Poorly-Balanced Breakfasts

Quaker Oats supplies excellent "food balance"

IF you feel tired, [illegible] "fidgety," hours before lunch, don't jump to the conclusion of poor health. You may have unenergetic mornings because your breakfasts lack certain important food elements.

To feel right, you must have a well-balanced, complete breakfast ration. At most other meals—lunch and dinner—you get it. But breakfast is a hurried meal, often badly chosen.

Thus Quaker Oats, containing 16% protein, food's great tissue builder, 68% carbohydrate, its great energy element, plus all-important vitamines and the "bulk" that makes laxatives or salts needless, is the dietetic urge of the world today.

It is food that "stands by" you through the morning. Don't deny yourself the natural stimulation this rich food offers you.

Get Quaker Oats today. Grocers have two kinds: Quick Quaker, which cooks in 3 to 5 minutes, and Quaker Oats.

MEDBURY SAYS---

By John P. Medbury

A BOSTON concern has revolutionized the baking industry by turning out square doughnuts.

THE corners are cut off so as to keep it from touching the edge of your coffee cup.

OF course the doughnut will still sink unless you want to burn it with which it is fried.

THE only sure way to keep it out of the cup is to drink your coffee from the saucer.

THIS company claims that by making their doughnuts larger they can do away with fifty per cent. of the splashing.

IT'S getting so that in some restaurants the patrons have to wear mud guards on their vests.

THIS new doughnut is endorsed by the book of etiquette. It helps keep your coffee spoon in the right place. There's not room enough for both of them in the cup at the same time.

THEY use a certain kind of flour in this doughnut so that if it does fall in the cup it will come to the top three times before it sinks for good.

IT'S too bad it hasn't a string attached to it so that you could rescue it without getting your fin gers wet.

IT'S considered very ill-natured to fish it out with the sugar tongs.

YOU have to wait until the coffee grows cold unless you want to burn your mouth.

CAUTION: Doughnuts are to be eaten, not used as a quarter to have your shoes laundered.

THIS makes a man's breakfast stand him thirty-six cents.

IT'S too bad that this bakery didn't take a hint from a large soap manufacturer and make a doughnut that will float.

IF people must drink, the tidiest way to do is to put the doughnut in the cup and pour the coffee on afterwards.

BY doing this you take all the fight out of the doughnut.

ONE man always sprinkles his cake with pipe-dottings and he never has any trouble finding it even in a cup of black coffee.

IF the bakeries make them any heavier, it won't be long before every restaurant will have to have a marine department for raising sunken doughnuts.

DAILY SHORT STORY

RIGHTING A WRONG

By Bertha R. McDonald

"FOR heaven's sake, stop nagging at me, woman!" Beryl Sanderson snapped with more of amusement than annoyance in her tone.

"But Beryl," Beth Conrad her friend and roommate insisted, "you're engaged to Ronald. For ever so long you've been writing to each other, and now that he's coming home you're going to throw him over. It's—it's positively cruel!"

"Who dares to tell me what I've got to do?" returned the younger and less serious girl. "Of course I was engaged to Ron, but it was only a boy-and-girl affair that started here in the boarding house long before you came. His letters are getting to be a positive bore now."

"I couldn't foresee that I would meet a wonderful man like Harry Fenton, could I? A man who's got money to burn and position and influence an ambition and everything to make a girl wildly happy. Harry's mad! in love with me and I'm going to marry him the minute he says the happy word. Ron or no Ron. Why don't you write to him yourself if you're so sorry for him? You'd type the letters, anyway, and he'd never know the difference. Here—answer his latest."

Beryl flung an envelope across to Beth who was reading, but she did not touch it until Beryl had left for an evening with her newest friend, Harry Fenton, and then she slipped it carefully between the pages of her book.

For months, in fact, ever since her coming to Mrs. Pridmore's high-class boarding house, Beth had been showing Beth Ronald Forrest's letters, pitiful, pleading attempts of a man to hold a girl's love, against distance and all lines that was as yet indeterminate.

"It is impossible, Beryl," he had written in one of them, "to tell you just where I am on my journey, but I'm hoping against hope that the trend will soon be so unmistakably toward permanent recovery that even I can see it."

Beth's tender, womanly heart was thrilled with a wish to help this man whom she had never seen when Beryl showed her that letter and she writhed mentally in real suffering when Beryl threw the letter maliciously to the floor with the cold, cruel observation, "If he think I'm going to tie myself to a man with one foot in the grave, he's considerably off trolley. Besides he's as poor as a church mouse. There are others who are not."

And so, this evening when Beryl suggested recklessly that she answer Ronald's letter herself, the idea took possession of her and gained ground with every passing moment. Finally, impelled by a sensation she found it impossible to analyze, she uncovered the portable typewriter she kept in one corner of their room in order to earn an extra dollar now and then doing typing at home, and took from between the pages of her book, Forrest's last letter to Beryl.

It was such a manly letter. It brought to Beth's mind a picture of the writer sitting in the sunshine drinking in the health-giving air in that little Arizona town, where he had gone in an effort to regain strength lost in the defense of the Stars and Stripes.

She had seen Ron's picture and had heard Mrs. Pridmore speak beautifully of him many times. The picture showed a face which she considered ought to win any girl's heart—a strong face, from which large, expressive eyes looked out and seemed fairly to melt into hers.

She typed a long letter, full of intimate, homely chatter, such as a person who is alone and away from all those they know and love best, likes to receive. When she had finished, she signed it with the simple initial "B" and thus was a long, interesting, deceptive correspondence begun.

Beryl washed her hands completely of any further attempt to interest herself in this old love of hers. Whatever his letters appeared in her mail, she tossed them contemptuously to her roommate with out even opening them.

Beth thrived on this correspondence. There came a new incentive to look and be her best, even though Ronald was "not there to see her." a rosier tint in her cheeks, a new sparkle in her eyes.

"How wonderful your letters have grown to be, Beryl," Ronald wrote. "You have improved vastly since I first knew you. You'll never know what your writing so regularly, unfailingly has meant to me. The letters have given me comfort, strength to go on with the fight, sometimes when my courage seemed about to ooze out at my finger tips. I've watched for them, counted the days until they were due, and I can honestly say they have had more to do with my complete recovery than anything else.

He often spoke of coming home and how Beth thrilled in answer to his longing, until she was brought up sharp against the realization that he would not be coming home to her but to one who would trample all his cherished hopes and dreams ruthlessly beneath her dainty little feet.

He came one Saturday afternoon when no one was expecting him. Beth was spending her precious half holiday doing some extra work at the office. Beryl was at home, bedecking herself for a gay season with Harry Fenton, when Forrest was announced.

"Of all the insufferable nit-wits, this is the worst," she exploded to the astonished Mrs. Pridmore, who could not imagine any girl being discommoded by having the hand some young man who waited in the living room below come to see her. "Just when I need Beth most, she's tied up at the office doing something which'll never get her anything except a little more of the same! Oh, well—I'll soon make mince meat of Ron Forrest's idea that I'll ever be anything more than a sister to him."

When she advanced into the living room where Forrest waited, she was busy pulling her hat down purposefully over her blonde bob.

"Oh!" she said with a suspicion of a sneer. "So you're back!"

"Why—er—yes, I believe I am," Forrest answered, as piously as though he had been away but a day or two. "Your letters have drawn me back, Beryl. They—"

"My name is Beth," she interrupted shrilly. "You sure have got another awful big guess coming, Ron. I got tired answering your sickly, grinning epistles long ago. If some other girl's been fooling you, it's none of my business."

Beri wondered afterword why Ron wasn't more put up about her offhanding dismissal of him. When she returned home late in the evening, the house was ablaze with light and Mrs. Pridmore with a very crisp very yellow bill in her hand, was standing, smilingly, in the very spot where she had last seen Forrest.

"Well, you sure did miss it, Miss Sanderson!" the genial landlady exclaimed. "Mr. Forrest went and married your room-mate less'n two hours ago, right in this here very parlor!"

THE SAYINGS OF MRS. SOLOMON--By HELEN ROWLAND

By Helen Rowland

VERILY, my Daughter, woman is the Weaker Vessel filled with capriciousness.

But man's mighty Will-Power is known far and wide in the Land.

Lo, he saith, "Never again!" and MEANETH it, with all his heart and with all his mind and with all his optimism.

Yet, upon the morrow, he sigheth, "Well, just once more!" And, in the Tempter's sleeve can be heard the tinkling of laughter. For, this is the Devil's best argument.

He saith, "Nay, I cannot stop for luncheon. For, this is my BUSY day!" Yet, when the sun comes out, within the hour, he taketh up his clubs and departeth for the links. And his conscience is clearer than the plot of a bedtime story.

He saith, "Take away the roast beef, for my doctor hath forbidden it", and he devoureth all thereon, to the last morsel.

He saith, "Others may fall by the wayside. But, as for ME, I shall never marry! Yea, give me liberty or give me death!"

And the damsel besides him applaudeth him, sweetly. Yet, within the year, he followeth her meekly to the altar, and knoweth not how he came there.

He saith, "Not another glass!" Yet, even as he uttereth the word, he findeth another at his elbow—and another—and another—and another!

He saith, "Women cannot tempt me! For, I have their numbers, every one of them—and they are all BLANKS!"

Yet, upon the morrow, he seeth a NEW face! And lo, his pulse beateth a jazz and it is all over with him!

He saith, "Call me at dawn. Be loyed. For, my girth exceedeth the belt limit. Now, will I arise with the birdies and do my daily dozen, REGULARLY!"

Yet, when his wife seeketh to awake him, he groaneth mightily and snoreth sweetly back into dreamland. And the radio calleth in vain.

He saith, "I am DONE with tobacco! For smoking destroyeth the appetite and wrecketh the nerves. Yea, I have sworn off!"

Yet, upon the third night, his wife espyeth him secretly eolaching him self with one of her monogrammed cigarettes.

Verily, verily, so long as a man delighteth in anything, whether it be a woman or a folly or a love affair, he is weaker than a soft drink. But when it hath ceased to charm him, he is full of strength; and his middle name is "Firmness!"

SELAH.

MARRIAGE VS. CAREER

By Lucy Lowell

WITH all the talk we hear about women and their careers, it is little wonder that the housewife sometimes feels that her life is dull. Glowing accounts of women who have succeeded in the business game confront the reader on every hand. The woman who stays at home, rearing a family, preparing meals, keeping a house, managing a non-too-generous budget, will often sigh and wonder if she is not being cheated.

"If I put the same effort into some business enterprise that I put into the keeping of our home, I believe that I, too, would be numbered among high-salaried women.

"What adventure is there in this work-a-day grind, doing the same things over and over again, day in, day out?" asked a suburban wife the other day. "I wish I could have a career," she added.

Her remark was addressed to a woman friend who had won laurels in the world of work outside the home.

The latter's eyes shone with longing as she glanced about the cosy living room and peered at the lawn. There was a wealth of meaning in the smile which played about her lips.

"You have a career," she said simply, "the greatest one God can bestow upon womankind."

All through the ages the shoemaker has envied the king and the king the shoemaker. We long to be that which we are not. Many housewives picture the woman in business as a glorious adventuress, whose every day represents some thing new, different, romantic perhaps.

The girl who has missed her chance to marry or who has purposely let it pass so as to continue her endeavors in the business field, will regard her mounting bank account with a cold eye and remark secretly upon how very little life has given her.

If she awakes from her heart she will tell you that no money success is comparable with the joy of wifehood and motherhood, and she is right because the normal woman's real vocation is marriage—marriage in its truest sense.

BOSTON YACHT CLUB STARTS CRUISE

By GEORGE W. GRIMM

With the return of the Eastern Yacht Club fleet after its successful annual Summer cruise through Maine waters, comes the preparation of the Boston Yacht Club's annual cruise which starts today at Marblehead. Starting at 1:30 o'clock tomorrow the entire fleet of some fifty or more yachts from the Boston Yacht Club will then start on the cruise.

Leading the squadron will be Commodore James R. Hodder of the Boston Y. C. sailing his flagship of the fleet, the Petrel. While next in line for the racing prizes and all other sports will come Vice Commodore W. W. Nichols of Marblehead in his 41-foot waterline sloop, the Marigold, which yacht by the way is one of the most picturesque crafts sailing of any in Massachusetts waters.

The different committees in charge of the annual Boston Yacht Club cruise have devoted considerable time in completing plans for the annual Summer event of the organization. Plenty of racing with lots of good times are already promised the yachting folks and their many friends who are planning to add color to the week's cruise.

First on the program will be a long ocean race for the fleet from Marblehead Harbor to Boothbay. This will find the smaller yachts sailing for Marblehead at 1:30 Saturday and the larger craft leaving at 3:00 o'clock on the same day. This race will be one of the most divisions due to the large number of craft and the chances for each. The fleet will spend the day at Boothbay Harbor, being in full dress aboard each of the Sabbath.

Among the other yachts to go on the Boston Yacht Club cruise will be the 42-foot waterline auxiliary ketch Sea Roamer, owned by Rear Commodore E. C. Spalding. Going it W. Linscott's 46 foot waterline auxiliary schooner Indra, and the North Star, another auxiliary schooner with 52-foot waterline, owned by Lewis O. Crane. There will also be many smaller crafts of the sailing type with an additional cruising fleet, all of which will be entered in the races already arranged by the regatta committee.

CLARK AWAITS RING BATTLE WITH QUILL

NORTH SHORE folks have the Greater Boston boxing attraction for the week in this section of the country tonight at the North Shore Arena, Salem. Matchmaker Jimmy Mede has four bouts to offer, one of 10 rounds, another of eight and two bouts of six rounds duration.

The feature attraction will have Buddy Clark, home boy swapping leather with Frankie Quill. Quill who hails from Gloucester, is the slaughtering ring performers to ever draw on leather, while Clark always has been a great drawing card.

Johnny Marto of East Boston will meet Paul Ouellette of Nashua, N. H. in the eight, while the preliminary bouts will find Sailor King, Gloucester, meeting Tommy Lee, Salem, and Tom Doyle, Salem, boxing Tommy Lannon, Revere.

ARCHIE WALKER, classy New York Hebrew boxer, assured Col. Robert McKirdy that he would be at Revere next Thursday night for his ten-round bout with Bill Heavyweight championship bout between Delaney and Berlenbach, dropped into the New York city, and inspected the injured mitt of Walker.

What Walker had to say to Bob McKirdy was this: "I was willing to go to the Boston Garden arena and meet Bill Murphy, but on information received that Murphy is one of the hardest hitting young boys in New England, I was finding taking the chance of getting into a skirmish with my injured hand and I don't intend going to the hospital for more harm."

Walker then informed Mister Walker that if he was not on hand for the attraction of the Cycle A. C. he would be forced to call the attention of the Massachusetts State Boxing Commission.

Twilight Brevities

But one Twilight league contest will be played tonight, that being another of the Dorchester finishes in second place. When this contest between Somerville and Dorchester is over, a defeat for the Kendrick club will make it a third place tenant for the initial half.

Tomorrow the goal is reached and the first half of the exciting campaign becomes a matter of history with another interesting one awaiting. Manager and President J. Warren Mosher has not completed the schedule as yet.

Before the second section is ushered in a double-header with South Boston and Revere as contestants will be staged here in Waltham tomorrow. In addition to this twin affair, Somerville does a return date with Fore River on the outskirts of Quincy.

Dame rumor has circulated news to the effect that Somerville will be minus the Salem club outright to Waltham directors. This however does not seem possible as the gold harvest commences trickling through entities next week.

Danny McFayden, Somerville High's one time strike-out king, has the "Twi" popping. Few of his recent performances have been accorded to the showers too often for comfort. Manager Norton has shifted him into the sun pastures.

Letty Shea, Boston College luminary is the leading shortstop in the league, batting five games to a standstill, the other setting ending in a deadlock. Had he joined May-day what the season was ushered in he might have lifted the pennant from Lynn's noble dome.

Frank McGowan, picturesque third sacker for the "Cantabs," will matriculate at Holy Cross next Fall. Big league scouts have stated that he is another Bill Hunnefield, that Fredericton product, who has made good with the Chicago White Sox.

"Dinny" McNamara, remain-ident at Boston College, defeated Lynn Classical a sawsmith once he donned the Maiden togs. Dinny's diamond days seem punching on-lingles at opportune times under Manager Coughlin's guardianship.

Accurate statistics show that larger attendances have witnessed the "Twi" sessions this year than in the days of Doing it More Harm.

Latest dope informed Mister Walker that if he was not on hand for the attraction of the Cycle A. C. he would be forced to call the attention of the Massachusetts State Boxing Commission.

Uncle Sam's Largest Lake

Right Here in New England

One reason why some New Englanders are not engaged in hot pursuit of the elusive dollar may be because they ARE New Englanders.

"Why go to Peru, the Argentine, the Canadian Northwest or Kamchatka, and devote the best twenty years of your life to accumulating millions," "Albert K." writes from Somerville, "when all a chap really needs is, let us say, one-tenth of a million?

"I'm going to quit when my bank account reaches the $100,000 mark. All I shall want in the way of luxury is a good car and a very modest boathouse, on the shore of some lake up in Maine. Nine months out of every year I shall continue to devote to business."

We shall be glad to hear from Albert K. again when the $100,000 is in sight. If he is like most men, his goal then will be a SECOND "hundred thousand."

Meanwhile, we take pleasure in bringing to the attention of our Somerville friend, and others, the fact that there are *more than one thousand Maine lakes which have yet to be developed along the lines of camp sites and Summer resorts.*

Emphasizing this boundless wealth of his great State, in health and recreation, Commissioner Willis E. Parson, of Maine's Department of Fisheries and Game, brings out another interesting fact which may be presented in the form of question and answer:

Q.—Where is the largest lake in the United States having its shorelines entirely within the borders of a single State? A.—In the State of Maine.

Q.—And the name of the lake? A.—Moosehead.

Q.—Can you state the length of Moosehead's shoreline? A.—520 miles.

Grampa used to sing a song about Uncle Sam being "rich enough to give us all a farm." Well, Maine isn't as rich as all that, but she IS rich enough and big enough to provide everybody with a Summer place on the shore of some lovely lake—at a very modest price, if so be it our wants are modest—or a villa by the sea.

And more than one young man who reads these lines is going to make HIS "pile" cutting Maine and the other subdivisions of America's Playground into slices to suit the taste and the pocketbook of the customer.

"Back to the Benches!"

Marlboro Calls Her Shoeworkers

The cotton industry in this district may be "relatively less active" than it is in the cotton-growing States, but the cotton industry is not ALL of the picture, or anywhere near all of it.

The shoe industry is picking up. In Marlboro, one big shop is working a night shift. There are orders enough on hand to keep every shoe factory in the city active until well into the Autumn and shoeworkers are being called back to their Marlboro benches in increasing numbers.

Builders continue to be exceptionally active. According to Mr. Myles W. Illingworth, secretary of the Employers' Association of Berkshire County, there is very little unemployment in THAT region.

The number of savings accounts in five mutual savings banks of Worcester is 213,297, a GAIN OF 4,606 IN THE PAST YEAR. The average individual deposit is on the increase, too. In 1921, it was $500; in 1925, $550; this year, $560.

Business in the "resort" regions, at the shore, in the mountains, by the lake-side, speaks for itself. Never before were there so many visitors, with so many dollars to spend freely for recreation, entertainment and courtesy.

The times may not be "anything to brag about," but we ARE "getting along," and there are much better times "just around the corner."

Do WELL What We LIKE

That Applies to Dog and Man

Nation-wide competition shows that "night students" excel those that study by day, although the night students do a day's work before their night's study begins.

It isn't surprising. We learn what we WANT to learn. WE ARE mentally what we LIKE mentally.

Put a little asafetida on a dog's meat and he won't digest it for thirty hours. A good deal of teaching in the past has had the asafetida taste.

Find a man in business "for himself," and watch him work. Then study his employes, working for wages, with no hope of higher reward. The owner of the business may be on the road to bankruptcy, and the employes may get about all the real money there is in the business. But the owner works with all his might. The salaried men dawdle. The owner is doing WHAT HE LIKES TO DO.

Mind OUR Business

And Let Them Mind Theirs

Our distinguished United States mediators in the quarrel between Chile and Peru return after a complete FAILURE. It is suggested that King Alfonso of Spain will not be asked to arbitrate.

Perhaps it would be wise for Uncle Sam, who doesn't understand the Latin temperament of our South American brothers, to refrain from mixing in their affairs or accepting invitations to mediate.

An old French proverb says about quarrels between man and wife: "Never put your finger between the mark and the tree."

Uncle Sam would be wise to express the kindest feeling for all the outside world and attend to his own business, which includes especially building flying machines and submarines.

LIVING TO BE 100 ALL DEPENDS

By DR. FRANK CRANE

CAPTAIN ROBERT DOLLAR, head of the Dollar Steamship Company, celebrating his eighty-second birthday, says:

"I may live to be a hundred years of age if I keep on working and don't permit the rust of retirement to kill me off."

A very true sentence, the truest word in it being the little three-letter word "may."

For on the same day there appeared two other items on the same subject.

An active bank president who had not let the rest of retirement kill him off, died anyway at the early age of sixty-one, and a woman celebrating her one hundred and second birthday attributed her long life to always "playing enough."

The moral is: It all depends.

In Los Angeles a man was carrying in an armload of wood. One stick dropped, he stumbled over it, fracturing his skull, and died in the hospital.

In New York an ironworker fell through an airshaft seven stories, landed squarely on a bricklayer's scaffolding from which he bounded, and fell five more stories into the basement. He escaped with a broken leg and an injured wrist.

In this world life and death are largely a gamble.

Good health is not. It is governed to a great extent by the individual. But living to a great old age is too largely dependent upon chance.

Everyone has a better chance to live to a ripe old age now than formerly.

The average lifetime is estimated to be fifty-eight years at the present time. Seventy-five years ago it was forty years. In the eighteenth century it was estimated at twenty-six years and in the Middle Ages at twenty-one years.

Recent statistics show that in the United States of one hundred thousand Americans born at a given time, only one hundred and eighty-three are left at the ninety-fifth birthday, and all but four have died by the one hundred year mark, and only one is left at one hundred and two years.

In the matter of long life we can count on the average but not on the individual.

A healthy old age should be within the grasp of everyone, but extreme longevity requires also the favor of chance.

Those who prophesy attaining a hundred do well to include the word "may."

HOW DO YOU TAKE YOUR BREAKS IN YOUR GAME?

Why not take the breaks of a game in a philosophical manner?

Why become exercised over what you term your hard luck in the game of life or in the game of play?

Are you one of the autoists who finds little joy in riding because of disturbing conditions met on the road?

Do you come in from your drive angry and perturbed?

Do you let yourself get so worked up and nervous that you are a wreck after a drive?

You worry about the slow-driving fellow ahead, cussing him under your breath and making the other occupants of the car most miserable.

Your family would like to enjoy a ride in peace.

Take conditions as they come.

It is the way you take the "breaks of a game" which marks you as a good sport or otherwise.

LISTEN, WORLD!

By ELSIE ROBINSON

I'M going to write about the people the world forgets—

The ordinary folks—

Who never cause scandals of commit crimes—

Who have no hidden sorrows nor eating hates.

Who love their families and only stage the regular number of rows with their in-laws.

Who stick together through all the years taking the good or the bad without thinking much about it, getting joy out of small pleasures and comfort out of simple thoughts and who die decently in their beds with most of their debts paid and leave no family skeleton

to walk in the funeral procession—

Ordinary folks—nobody ever writes about them.

They get no brass bands when they come to town.

Nor any headlines in the paper. You'd think, to read in the news, that they didn't exist.

Sally's Dreams.

How about sixteen-year-old Sally, who never tasted a drink in her life except that time she had a bad cold and then she thought it was horrid? Little Sally, who has one rose-colored organdie dress and who is saving her first kiss for a Wonderful Hero with wavy hair, who will come riding through the moonlight and kneel at her feet.

You didn't know that sixteen-year-old Sallys still had dreams like that, did you, Pal? Yes, they do. But they don't make news stories of them.

Or how about the quiet, clumsy, good natured daddy?—plain daddies, not sugar papas. The daddies who roll out at 6:30, rain or shine, who eat a plate of flapjacks and a couple of eggs, or a warmed over piece of round steak and then have to run for the 7:45.

The daddies who carry the Missus' picture in the back of their watches—that picture she had taken way back in 1900, when they were wearing high collars and were walking like Gibson girls. Who tell you what the little Tike said last night and how Bill—that's the eighteen-year-old boy—won the hundred yard dash in the High School track meet.

Who slug through the same old grind day after day, week after week, year after year, and grumble a little and laugh a little and manage to stay right side up through it all.

Nothing very swishy about those dads, is there? Not much first page copy in a bunch like that. Almost forget they exist, don't you? Yet what a hole it would make in your life or mine if they didn't!

Plain Little Wives

Or the plain little wives who don't count their calories or tint their hair or stick 'em up for alimony or lose pearl necklaces or dope with the Russian dancer, how about them?

The kind hearted, short tempered, dowdy little wives who spent their days cleaning out the closet under the stairs, and wiping the baby's nose and telephoning to Mrs. Jones and stirring up a devil cake for the Parent Teachers' dinner and making a platter of sandwiches and a pitcher of fruit punch so Amy can entertain her young man that night.

Do you ever stop to think of them when you read one of these gloomy articles that tell how fast the American home is going to the dogs? No, you don't. Neither do I. Why, I've actually written some of those articles myself.

Sometimes I get so smoked up thinking about all the neurotic women and tom-catty men that I know, all the fresh young flappers and flip young sheiks, all the spoiled fruit of the human family, that I entirely forget those Regular Folks who are keeping the world moving on.

So here's to them now! Here's to the honest, decent, kind, patient, hard-working, Ordinary People whom the world forgets! The healthy folks who keep life sane. The sweet folks who keep up kind. THE FOLKS WHO HOLD LIFE TOGETHER FOR YOU AND FOR ME, WHO, UNCONSIDERED, BUILD OUR LITTLE HEAVENS AND EASE THE AGONY OF OUR LITTLE HELLS.

GOD BLESS THEM AND HELP US TO REMEMBER THAT THEY LIVE.

LOOKS Like a Queen

Many Look Like Woebegone Housemaids

HER MAJESTY QUEEN MARIE—SHE LOOKS THE PART.

It's a pleasure for a change to see a queen that LOOKS like a queen, and this is one of that kind. She is Queen Marie of Jugo-Slavia. Her husband, King Alexander, is King of the Slavs, Croats and Slovenes. She is a daughter of the King and Queen of Rumania, and knows very well indeed who she is, as you see in her regal haughtiness.

If you met this lady and said, "Haven't I met you somewhere before?" and if she said, "No, you haven't, I am the Queen of Jugo-Slavia," you would believe her and say "Excuse me."

Most of the queens whose pictures we see look like very GOOD women, but otherwise a little dull. We respect them for their goodness, their plain dressing, long skirts, honest, plain faces, and congratulate their husbands on having such "homey" wives. But our idea of a queen, imbibed in childhood, when we read about Queen Guinevere, Marie Antoinette, the magnificent Queen of Sheba on her camel, or Queen Dido yelling because her gentleman friend left her—our idea of queens is very different from the ordinary real queen.

This queen, with a curl to her lip and a glance in her eye that would intimidate George M. Cohan, comes as a welcome relief from the average queen.
